

Part 1: Test what you know about absolute value.

The five numbers below are written as absolute values. Fill in the value in the blank to the right.

$|26| \underline{\hspace{2cm}}$

$|-3| \underline{\hspace{2cm}}$

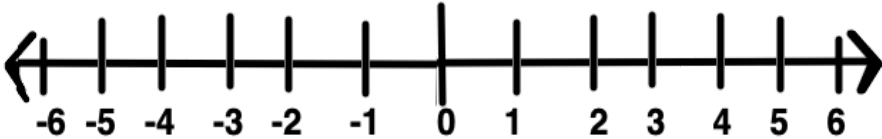

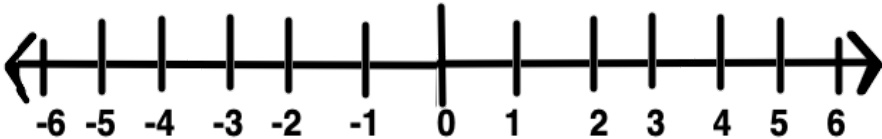

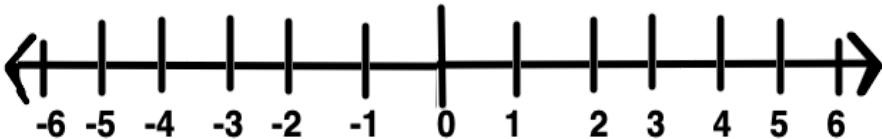

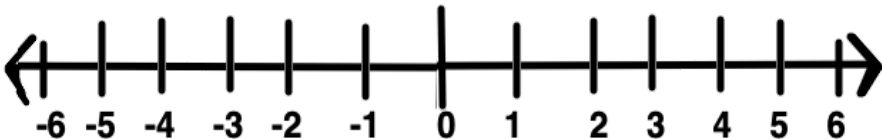

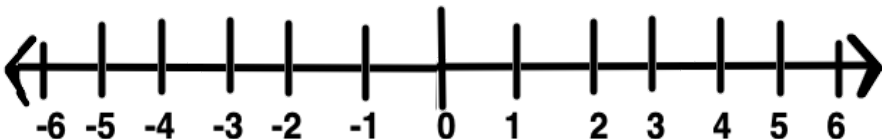

$|65| \underline{\hspace{2cm}}$

$|-6| \underline{\hspace{2cm}}$

$|28| \underline{\hspace{2cm}}$

Part 2: Use a number line to find the value

Add the numbers and fill in the value in the blank to the right. Use the number line to help.

$-3 + 7 = \underline{\hspace{1cm}}$	
$2 + -5 = \underline{\hspace{1cm}}$	
$-1 + (-2) = \underline{\hspace{1cm}}$	
$6 + (-4) = \underline{\hspace{1cm}}$	
$-6 + 12 = \underline{\hspace{1cm}}$
