New Business

- ii. TeamSnap vs Teamlinkt or other management software.
 - 1. Do we need to spend the money on something new when we already have a website that looks good?
 - 2. Sharing the link to the website and has sent the link to all the coaches for the app
 - a. <https://leagues.teamlinkt.com/leagues/team/32710/722590#home>
 - 3. With the new site, we can add a weather report, schedule, standings, etc.
 - 4. We can phase out the old website and the link would move to this new site. It can be done now or later.
 - a. Matt's recommendation is to continue TeamSnap through the end of the year.
 - 5. There would be a fee associated with it. If it were around \$25 per player, it could be collected by case, check, etc.
- iii. The current cost of the website and TeamSnap is becoming a lot.
 - 1. If the teams want to do stuff on the website for everyone, we can do that.
 - 2. Coaches could use the website instead of TeamSnap to post the roster, schedule, stats, etc.
- iv. Website Necessities
 - 1. We need to publish our apparel stores.
 - 2. Links for coaches to collect payments.
- v. Facebook has become our "store front" in public.
