

A Scavenger Hunt

Walk through the forest as a group, stay together because you can only check the box off if everyone in your group sees the object and your group discusses the question (if there is one).

- ☐ rock with visible crystals (sparkly things in it)
- ☐ fruit (don't eat it)
- ☐ lichen from a tree (the orange or black stuff growing on the tree bark)
- ☐ stone from a stream bed and a stone from somewhere besides a stream bed (How are these rocks different)
- ☐ a sign of an animal (what animal do you think it is?)
- ☐ a red leaf (why isn't it green?)
- ☐ a leaf that is big and broad, the biggest leaf you can find (how does a big leaf help the plant?)
- ☐ something that is dead and decaying (what is helping it decay?)
- ☐ a leaf that stays green all year long (maybe a needle looking leaf)
- ☐ fir cone (kind of like a pinecone, most evergreens around here are Douglas Fir)
- ☐ thick, waxy leaf (where does this leaf live)
- ☐ soft, thin leaf (where does this leaf live)
- ☐ something camouflaged (Why does it need to be camouflaged?)
- ☐ something fuzzy (what is it?)
- ☐ piece of litter (bring this back with you)
- ☐ bone (don't pick it up, what did it come from? predator or prey?)
- ☐ feather
- ☐ seed that is spread by wind
- ☐ seed that is spread by sticking to you or an animal
- ☐ your favorite thing in nature (just tell your adult)
