

# Getting your lyrics on the three leading lyric databases

We support labels and artists when they want to submit lyrics to Musixmatch, Genius, and LyricFind. Many artists do not have a channel to submit time-synced lyrics to LyricFind (unless they are with a major label).

Lyrics are not only an essential part of enhancing the listening experience for your fans and listeners, but they also generate additional royalties each time they are viewed online. Did you know that 88% of the listeners and fans also look at the lyrics? You are losing out on extra royalties if your lyrics are not being displayed online!

**We can help you to submit your song lyrics to the lyric databases on Musixmatch, Genius, and LyricFind.**

Submissions to Musixmatch and LyricFind include time-syncing of the lyrics (so they can show up 'karaoke-style' on relevant streaming services).

Musixmatch and LyricFind distribute lyrics to most of the digital streaming platforms, such as Spotify, Apple Music, Deezer, Amazon, Tidal, Shazam, and many other services that display lyrics (e.g., Google Search). There is some overlap between Musixmatch and LyricFind, but there are also important channels that only get lyrics from one source. E.g. Spotify, Facebook, and Instagram only use Musixmatch. YouTube Music and Deezer only use LyricFind.

## A Musixmatch Pro subscription is required

Musixmatch charges artists (and agents/labels that have the artist on their roster) a small annual fee for distributing song lyrics to their partner platforms (Genius and LyricFind don't charge). Lyric distribution is included in the **Musixmatch Pro Basic subscription (or higher)**. Agents and labels have different subscription plans.

Only artists (and their agent/label) can initiate the distribution of lyrics.

Because distribution is controlled through your Musixmatch Pro subscription, I will either need access to your Musixmatch Pro account to submit lyrics on your behalf, or you need to verify my submission using your Musixmatch Pro account.

You can only share access to your account if your login credentials for Musixmatch are based on your email address and password. You cannot share credentials if you are using Google, Facebook, or Apple to log in to your Musixmatch Pro.

If you are using Google, Facebook, or Apple to log in to Musixmatch Pro, or if you don't want to share your credentials, then you will need to verify my submission using your Musixmatch Pro account.

## For Genius and LyricFind...

We use our accounts to submit lyrics to Genius and LyricFind.

## Payment and Delivery Guarantees

Our lyric submission service is NOT listed on Fiverr or similar platforms! We can create a custom offer on Fiverr for this service, so that payment and delivery guarantees run through the Fiverr platform.

Optionally, you can pay us through PayPal.
