

Warbirds Art

We will explore the artwork painted on many of the WWII fighter planes. We will discuss who, why and how of warbird art. Students will create art either inspired by plane art from WWII, or art they would have wanted on their own fighter plane. We will complete the work using paint pens, sharpies and charcoal on illustration boards. Through this workshop, students will learn the process of creating a project beginning with the inspiration through idea development, project creation, completion and critique.
