Global Impact Diploma

Member School Fee for 2027-2028

Overview

Since emerging from the Pathways Summit in May of 2024, we have been grateful for the generosity of the GID community. Over and over again, people have volunteered countless hours to bring the GID's vision to life. Schools like AIS Budapest and FDR in Peru have also been generous in providing time for people to work on the Global Impact Diploma.

However, we have known that the current approach would not be sustainable long-term and we spent several months exploring our financial strategy with a range of schools. Below is the result of that work, and it lays out the value we strive to provide to schools along with the fees in order to ensure our long-term sustainability.

GID Member School Benefits

GID Member Schools receive the following:

- Regularly updated course guides for each of the courses that are competency-based
- Global communities of practice for teachers, coordinators, counselors and administrators
- Reduced rates for GID trainings
- Annual GID Summits that bring our whole community together
- Opportunities to connect students through our courses, internships, etc.
- Marketing and promotional materials
- A consistent, compelling vision for universities
- Leadership and conference speaking opportunities for students and staff

GID Member School Fees

For the 2027-2028 school year, the GID Member School fees are below along with our major expenses. We understand that our GID Schools vary in size and budgets, and we recognize that schools create their budgets at different times of the year. We also want to ensure that the member fees do not create a barrier for schools joining the GID community, especially during our three-year pilot phase.

With that in mind, we encourage Directors to contact the GID Director Team if your school needs any type of financial assistance with the annual fee.

Member School fees for 2027-2028 will be due by June 30th, 2027.
