3) Milking Machine.

We bought this used for \$1400. We then purchased new tubes and pieces (I can't remember how much now, I think it was around \$400). We have NEVER used this- we ended up just always hand milking. So I cannot speak to how well it works. We bought it from a working dairy , and had our goat mentor inspect it before purchasing, and we were told all worked well!

Asking: \$500
