

NPHS BANNER REGULATIONS

In an effort to standardize and upgrade the look of our entire facilities, and to prevent unauthorized entities from hanging banners without permission, NPHS will require all booster club banners to follow new guidelines. You are still welcome to use whatever banner company you choose and charge your sponsors what you would like.

Due to the abundance of severe winds over the years, booster clubs must regularly check the condition of their banners throughout the year, and may want to consider using mesh material or have wind slits to maintain a neat appearance and to prolong the life of the advertisement.
