

	Rectangle	Trapezoid	Kite	Square	Parallelogram	Rhombus	Isosceles Trapezoid
Diagonals bisect opposite angles							
Legs are congruent							
Opposite sides are parallel							
Base angles are congruent							
Has 360 degrees							
One pair of congruent opposite angles							
Consecutive angles are supplementary							
4 congruent sides							
Diagonals bisect							
Diagonals are perpendicular							
Opposite sides are congruent							
One set of parallel sides							
4 right angles							
Opposite angles are congruent							
Diagonals are congruent							
Two sets of congruent consecutive sides
