INTERACTIVE WORKSHOPS

Martinez, R.A., Andrabi, N., Goodwin, A.N., Wilbur, R.E., Smith, N.R. “Best practices & common failings: Clear communication of race and ethnicity for public health.”

1. GSK (GlaxoSmithKline). November 2023.
2. The North Carolina Translational and Clinical Sciences Institute. March 2023.
3. Center for Pharmacoepidemiology. January 2023.
4. IAPHS Pre-conference Workshop for the 8TH Annual Meeting. November 2022.
5. Robert Wood Johnson Foundation: Healthy Eating Research Grantee Meeting. April 2022.
6. IAPHS Pre-conference Workshop for the 7TH Annual Meeting. September 2021.
7. Carolina Population Center. September 2021.

The above is a four-hour, interactive workshop, facilitated by the authors. This workshop was designed to help participants of all training levels and of different health disciplines develop skills to thoughtfully communicate the use of race and ethnicity in their work. Workshops involved a combination of lecture and small group activities. Workshops highlight current cross-disciplinary practices in how race and ethnicity are communicated in published manuscripts, common poor practices (i.e., ambiguous or outright harmful language), “best practices”, and the changes participants can make in their own scholarship.
