

December 3, 2020

Dear P.S. 81 Families,

Attached is a letter notifying you that on 12/3/2020 a member of our school community tested positive for COVID-19. After investigation, the NYC Department of Health and Mental Hygiene and the NYC Test and Trace Corps have concluded that there has been no exposure to the school community because the person was not at school while infectious.

I urge you to follow the guidance outlined in the letter in order to keep your family safe. These steps will ensure that our school community remains safe and our blended students will continue to engage in in-person learning.

Best Regards,

Anne
