- <http://stockxdemo.com>

### 10/16 - 10/16 **Tesla Clone**

*Angular 1.X, Node, SQL, Gulp, CSS, jQuery*

- This Tesla Motors site clone was aimed for the model S custom order feature.
- Using photo cutouts of each part, a dynamic image url was supplied and controlled with calls to the database
- Quickly learned and utilized flexbox to position several elements
- <http://138.68.55.106/>

## EXPERIENCE

### 12/15 - 8/16 **Research Analyst**

**Helix Education** — Salt Lake City, UT

- Analyzed multiple types of research data including primary and secondary source market research information.
- Continued to find new potential resource information as our client base expanded.
- Managed and manipulated data supplies from clients and other sources.
- Contributed to the innovation of the department through recommendations for white paper research, new research tools, new reporting options, and analysis of research and information gaps that helped our clients be successful.

## Education

### 8/16 - 11/16 **DevMountain** — Provo, UT

- [Full-Stack Web Development](#) - Acclaim Certified
