

## **Let's boost your sales with social media!**

Hey [business name]

I was recently browsing through [business name] and was genuinely impressed by what you offer. It got me thinking about how social media platforms with its massive user base could significantly amplify your reach.

I specialized in running and managing social media accounts, helping businesses like yours reach a broader audience and in turn increase sales, with the right strategy I believe we could unveil a new layer of potential for the [business name].

To make things straight forward.

1. I will manage and run your social media.
2. Initially I will do it for free for the first few weeks, consider it a trial phase.
3. Once you start seeing the desired results, my fee would be 200\$ per month.

I understand introducing a new marketing strategy can be interesting, so I would love to chat more about how this can specifically benefit [business name].

Thanks for your time. [business name] looking forward to the possibility of working together.
