GRADING

Content Knowledge Assessments (Skills Quizzes): 80%
Work (homework, notes, classwork check-ins, online assignments, etc.) 20%

Assessments will be standards-based skills quizzes for each skill within a unit, of approximately 5 questions each. Grading breakdown for these quizzes is as follows:

0 correct but attempted the quiz - 10% (Requiz)
1 correct - 25% (Requiz)
2 correct - 50% (Requiz)
3 correct - 80% (Proficient)
4 correct - 90% (Advanced)
5 correct - 100% (Mastered)

If mastery of the skill is not shown when the quiz is taken the first time, it may be re-taken, with the initial grade replaced with the new grade as long as the student has shown new practice effort on the given skill (remediation). **Scores of 80% or higher may only requiz once.**

All skills quizzes are to be taken individually. If we are suspicious of any collaboration between students, you will be asked to take a different version at a different time.
