

I don't need to say much for this, trust me.

[Here's her old doc](#)

EMI LIKES FERAL PORN AND HAS BEEN LYING FOR LITERAL YEARS ABOUT IT

Exclusive posts from capscug include her reposting feral porn of cats, pokemon, and the like! I don't have much proof of these since she deleted her account, but she's sent feral porn in group chats before and has posted things like tasque manager's cat version with a cock. Also includes roblox gubby porn.

~~Real quick, btw. I'm not saying she groomed me. I'm heavily against saying she did, because she really didn't.~~

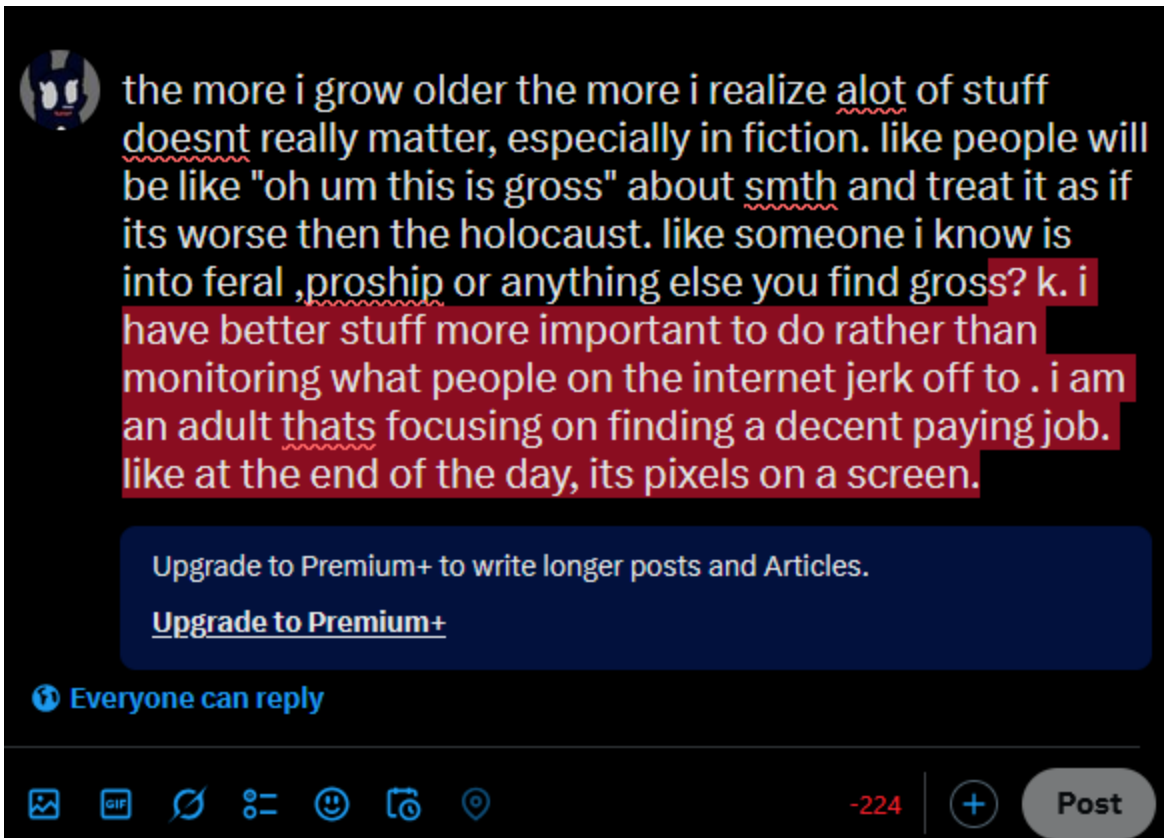

^ on hindsight this definitely fucked me up in a way or two, after some deeper research I probably got groomed or at least very close to it. trust me the shit she did rubs off on you bad when you hang with her long enough

I can't say the same for the others, though.. It really looks like she convinced them that all this horrible shit she did is completely fine and dandy.

All of the "grooming" stuff is bullshit, too. **She was groomed, but that did NOT contribute to her reposting and jerking off to feral porn. She does it because she LIKES IT.**

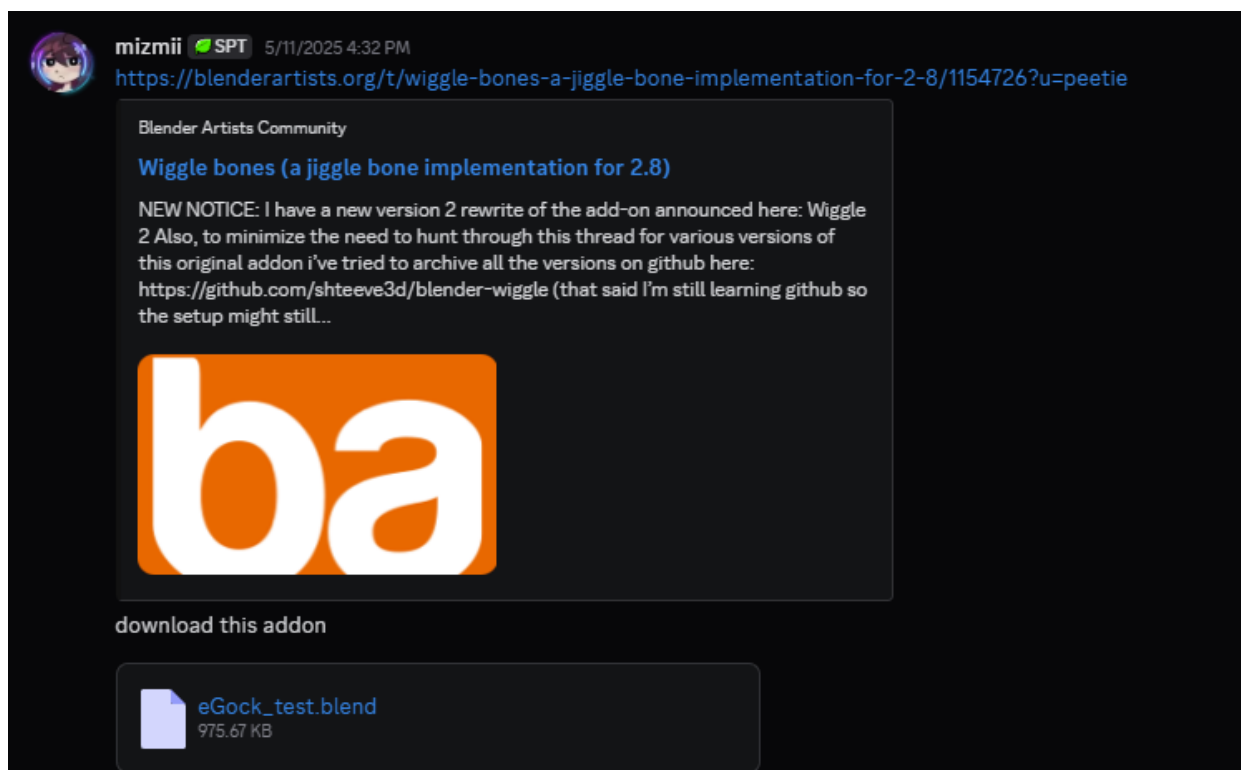

ALSO I LEARNED THIS ALL OVER TIME! I DIDNT KNOW THIS BEFORE DATING HER!

I pretended to be fine with it for a while because it was basically a requirement for her to like anyone. Deep down I've been really fucking grossed out by this.

She also is completely fine with minors making NSFW art for her.

^ this is me btw

This was before we started dating too, **and she knew I was 16...**

Another friend of mine was also making a porn rig of Sally, **and emi was completely fine with it despite their age (15).**

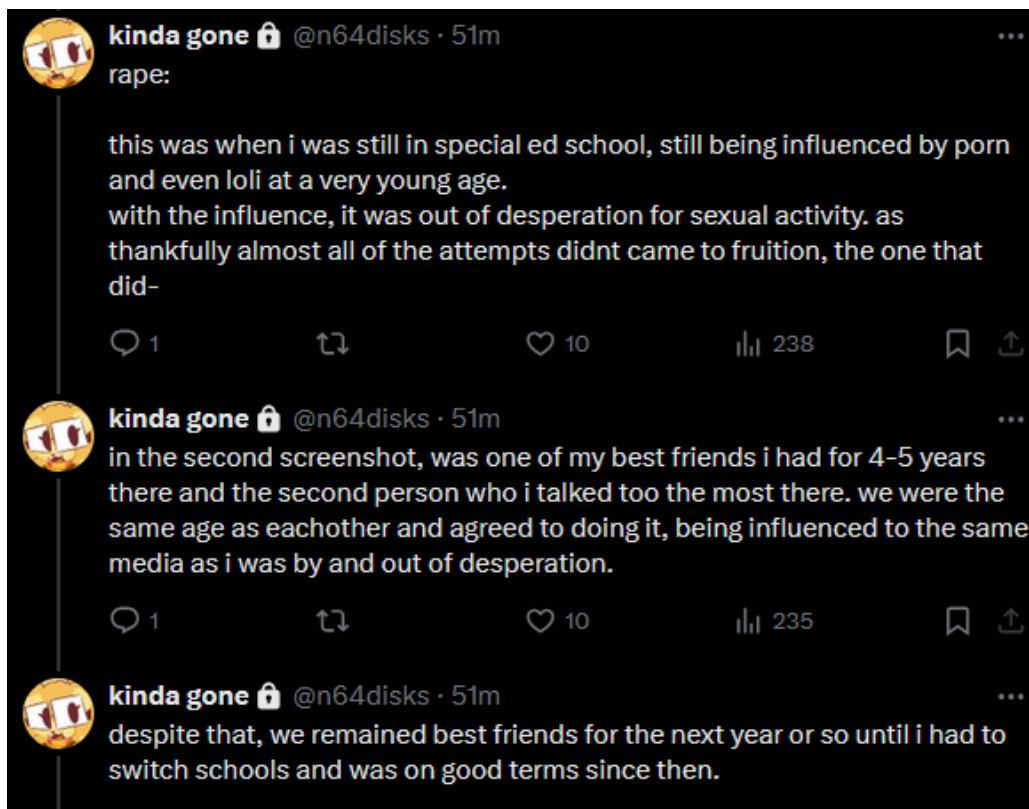

**i have a fat, hyper, semi-vore and feeding fetish and
alot more i should keep to myself (for reasons)
:33333**

Also she *may* be an age regressor,,,
She has said she wishes she was a kid again,,,
In less of a nostalgic way too,,,

I wonder if she wishes she was a kid again so she can do what she did in special ed...

second, i been trying to distance from feral for a bit as,,, tsk tsk yknow happened for 3 years straight and i wouldnt want to have thoughts of tsk, tsk,,, to happen again,,, idk how i feel abt this information being said,,,

Loud incorrect buzzer

Everyone else she dates like feral. She actively tries to get people to like feral. She follows people who like feral, for fucks sake she probably DRAWS feral.

EMI ALSO SHARES AND RECEIVES PICTURES FROM MANGO, WHO IS 16!!

Mango is completely fine with and supports all of this behavior, and it is my assumption that they have been groomed into this.

There's a lot more I'm probably forgetting, my memory isn't the best.
