

Whereas our community has tonight been revealed as a cesspool of corruption and lies, and

Whereas the need for immediate and drastic change has never been more apparent,

We the undersigned advocate the following course of action.

1. Ed\_San, Gaidz, BTownBomb, and Didicet, as well as all current members of the cabal as of AJ's revelation, shall be permanently banned from our simulation with the exceptions of SuleimanCaine, DuceGiharm, Rolfeson, Hawksteady, Rkhan, and StrongBad04, whose situations will be reviewed under the new Constitution.

2. A Constitutional Convention shall be convened, consisting of a slate of delegates suggested by the Provisional Administration and approved by the community.

3. Within thirty days of convening, the Constitutional Convention shall propose a new ModelUSGov Constitution to the community for approval.
