- Puzzles
- Word Searches
- Sudoku
- Mazes

Websites

- www.gregtangmath.com
- www.abcya.com
- www.code.org

Math Apps

- Number Blocks Card Fun
- Moose Math
- Geoboard
- Quick Math

Tips to Build Your Home Library

- Have a book swap with friends/neighbors
- Shop Goodwill, Savers, Yard Sales and other thrift stores
- Shop Scholastic Book Orders (and help us build our classroom library too)
- Give books as gifts
- Join the Alton Library and borrow books (including books on tape and audio books which are a great alternative to TV for quiet time at home and in the car).

Note: Reading to your children is just as important (maybe even more) than having them read to you! Families are encouraged to read and discuss picture books and early chapter books to develop a love for literacy!

Writing at Home

- Write reminders
- Write lists (groceries, christmas, etc)
- Write thank you cards
- Staple paper together and make books
- YouTube: Kids Art Hub (great for handwriting skills)

Podcasts

- Podcast: Little Stories for Tiny People
- Podcast: Brains On! A Science Podcast for Kids
- Podcast: But Why: A Podcast for Curious Kids
- Podcast: Holtzen Family Reads
