INTRODUCTION

Introduction should be about one page, containing the background, reasons to do the research, problem formulation, purpose of the research and without sub-heading, bullets, or numbering. Introduction should be about one page, containing the back-ground, reasons to do the research, problem formulation, purpose of the research and without sub-heading, bullets, or numbering. Introduction should be about one page, containing the background, rea-sons to do the research, problem formulation, purpose of the research and without sub-heading, bullets, or numbering (Berkman 1994).

Introduction should be about one page, containing the background, reasons to do the research, problem formulation, purpose of the research and with-out sub-heading, bullets, or numbering. Introduction should be about one page, containing the back-ground, reasons to do the research, problem formulation, purpose of the research and without sub-heading, bullets, or numbering. Introduction should be about one page, containing the back-ground, rea-sons to do the research, problem formulation, purpose of the research and without sub-heading, bullets, or numbering (Cengel & Boles 1994).

Introduction should be about one page, containing the background, reasons to do the research, problem formulation, purpose of the research and with-out sub-heading, bullets, or numbering. Introduction should be about one page, containing the back-ground, reasons to do the

research, problem formulation, purpose of the research and without sub-heading, bullets, or numbering. Introduction should be about one page, containing the back-ground, reasons to do the research, problem formulation, purpose of the research and without sub-heading, bullets, or numbering (Cengel & Boles 1994).

RESEARCH METHOD

It comprises the procedures or steps of the research, e.g., from the methods of sampling to the data analysis, and presented in brief and concisely by numbering. It comprises the procedures or steps of the research, e.g., from the methods of sampling to the data analysis, and presented in brief and concisely by numbering. It comprises the procedures or steps of the research, e.g., from the methods of sampling to the data analysis, and presented in brief and concisely by numbering.

It comprises the procedures or steps of the research, e.g., from the methods of sampling to the data analysis, and presented in brief and concisely by numbering. It comprises the procedures or steps of the research, e.g., from the methods of sampling to the data analysis, and presented in brief and concisely by numbering.

ANALYSIS AND DISCUSSION

It presents the analysis of the related results, theories, and hypotheses (if any) based on the writer's reasoning. Data analysis and discussion should be presented in brief but clear and it is not dominated by table presentation. The tables which are presented should not be the rough output but in the processed and brief summary. Tables and pictures are presented consistently in the center and the titles are above for the tables and below for the pictures. Bourassa (1999) emphasized it presents the analysis of the related results, theories, and hypotheses (if any) based on the writer's reasoning. Data analysis and discussion should be presented in brief but clear and it is not dominated by table presentation. The tables which are presented should not be the rough output but in the processed and brief summary. Tables and pictures are presented consistently in the center and the titles are above for the tables and below for the pictures change (Bowden and Fairley 1996).

It presents the analysis of the related results, theories, and hypotheses (if any) based on the writer's reasoning. CONCLUSION

It is the closing of the article which reflects the essence and reasoning of the research by the writer. It is also logically based on the evidence taken from, and presented by the writer in paragraphs. Implication, limitations, and suggestions are also presented in paragraphs without numbering. It is the closing of the article which reflects the essence and reasoning of the research by the writer.
