BADGE REQUIREMENTS

A	(i)	Identify the Sustainable Development Goals by their meanings.
	(ii)	Choose ten Sustainable Development Goals (SDG). For each SDG, give one suggestion on how YOU can implement the goal in your daily life.
B	(i)	Collaborative partnerships are agreements and actions made by consenting organizations to share resources to accomplish a mutual goal. Give five reasons why collaborative partnership is important.
	(ii)	Collaborative partnership between organizations like Girl Guides Association Malaysia and local agencies will encourage progress in achieving the targets of the Sustainable Development Goals. Suggest and describe one project/event/activity that can be carried out with any three of the following agencies: (a) Ministry of Health (b) Ministry of Education (c) Ministry of Communications and Multimedia (d) Ministry of Energy, Science, Technology, Environment and Climate Change (e) Ministry of Women, Family and Community Development (f) Ministry of Youth and Sports (g) Women's Aid Organisation or any other agency of your choice
C		Plan one project/event/ activity which your group of Girl Guides can carry out with any club/society/ uniformed units in your school. Your project should be based on one Sustainable Development Goal. • The outcome of your project should be sustainable (able to be continued) • You can prepare a simple report of your project/event/activity based on the guidelines given.
D		Choose two SDGs and explain how they are interlinked.

Note: The tester should be a warranted Guider who understands the objectives of the Sustainable Development Goals.

SDG 17 : PARTNERSHIP FOR THE GOALS

Objective: Strengthen the means of implementation and revitalize the global partnership for sustainable development

A. (i) Identify the Sustainable Development Goals

The Sustainable Development Goals (SDGs) are a set of 17 interlinked global goals designed by the United Nations to achieve a better and more sustainable future for all.

Sustainable development is defined as an approach to development by using resources in a way that allows for them to renew and continue to exist for others.

Identify the Sustainable Development Goals which fit the following meanings.

No.	Meaning	SDG
a	End poverty in all its form everywhere.	SDG 1
b	Make cities and human settlements inclusive, safe, resilient and sustainable.	
c	Build resilient infrastructure, promote inclusive and sustainable inclusive and sustainable industrialization and foster innovation.	
d	Ensure access to affordable, reliable, sustainable and modern energy for all.	
e	Ensure sustainable consumption and production patterns.	
f	Ends hunger, achieve food security and improve nutrition and promote sustainable agriculture	
g	Reduce income inequality within and among countries.	
h	Ensure availability and sustainable management of water and sanitation for all.	
i	Take urgent action to combat climate change and its	

	impact.	
j	Ensure healthy lives and promote well-being for all at all ages.	
k	Conserve and sustainably use the oceans, seas and marine resources for sustainable development.	
l	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.	
m	Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification and halt biodiversity loss.	
n	Ensure inclusive and equitable quality education and promote lifelong opportunities for all.	
o	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable institutions at all levels.	
p	Strengthen the means of implementation and revitalize the global partnership for sustainable development.	
q	Achieve gender equality and empower all women and girls.	

- (ii) Choose **ten** Sustainable Development Goals (SDG). For each SDG, give **one** suggestion on how **YOU** can implement the goal in your daily life.

For example, SDG 12 : Responsible Consumption and Production
I bring my own container for take-away food.

Present your answers in a creative way.

- B. (i) Collaborative **partnerships** are agreements and actions made by consenting organizations to share resources to accomplish a mutual goal.
Give **five** reasons why collaborative partnership is important.

- (ii) Collaborative partnership between organizations like Girl Guides Association Malaysia and local agencies will encourage progress in achieving the targets of the Sustainable Development Goals.

Suggest and describe one project/event/activity that can be carried out with any **three** of the following agencies:

- (a) Ministry of Health
- (b) Ministry of Education
- (c) Ministry of Communications and Multimedia
- (d) Ministry of Energy, Science, Technology, Environment and Climate Change
- (e) Ministry of Women, Family and Community Development
- (f) Ministry of Youth and Sports
- (g) Women's Aid Organisation

or any other agency of your choice

(Add extra sheets of paper if necessary)

- C. Plan **one** project/event/ activity which your group of Girl Guides can carry out with any club/society/ uniformed units in your school.

Your project should be based on **one** Sustainable Development Goal.

- The outcome of your project should be sustainable (able to be continued)
- You can prepare a simple **report** of your project/event/activity by filling in the information below.

Title of Project / Event / Activity
SDG focus
Outcomes of Project / Event / Activity
Date / Duration
Place
Who are involved

--

Who are the beneficiaries

--

Description of Project / Event / Activity (To be supported by photographs with captions)

(Add extra sheets of paper if necessary)

--

Cost incurred
Summary / Conclusion

--

- D. While the Sustainable Development Goals (SDGs) are 17 separate elements, the goals are interconnected with each other forming a linkage that aims to achieve sustainability. Achieving the targets of one goal may contribute to achieving the targets of other goals. For example, decent work (Goal 8) will help achieve poverty eradication (Goal 1).

On the other hand, the achievement of one goal or target may conflict with the achievement of others. For example, an increase in agricultural production to help end hunger (Goal 2) can cause land pollution when too much fertilisers or pesticides are used (Goal 15).

Other than the examples given above, choose **two** SDGs and explain how they are interlinked.
