6.2.1 Perspective/Strategic plan and Deployment documents are available in the institution

Response:

Upliftment of students for higher education

Institute develops clear perspective plans keeping in view the vision and mission of the institution. Thus, institute develops the entrance exams preparation class in old campus.

The entrance exams preparation class:

In the last three years the institute has generated a critical mass around this issue. The visiting faculty Mr. Raju Kendre and Mr.Prashant Chavhan has developed a platform called 'Eklavya Preparatory Course' which is proving to be the turning point for the students. These collaborative and consistent efforts are of immense help for our students. This year around 20 plus students are getting admission to the institution of national repute.

It has been observed that the students right from the first year level need to strengthen their foundational aspects in areathmatics, history, civic, geography, etc. the course structure is now designed for the first and second year level. They themselves have formed their peer team for conducting these classes twice a week
