Students' Feedback

"I opted for IBC Alt Hack because it's a great opportunity to gain technical knowledge and learn the basics. Being an Accounting student, Hackathon is quite different to me. I have learnt lot many things in IBC Alt Hack. I have learnt blockchain and how it work; about Polkadot, web development and several other interesting topics in this space. This Hackathon has helped me learn new things because "new learning can never go wrong".

Mukkera Siri
Rishi UBR Women's College, Nizampet

I opted IBC Hackathon to develop my skill in a multidisciplinary group and also to showcase & develop project in real time. IBC Hackathon helped me gain knowledge on new technologies which will help me in future.

Sai Pratyusha
Rishi UBR women's college, Nizampet

I opted for IBC Hackathon to gain more knowledge about emerging technologies like blockchain and Web 3. I aspire to become a Web 3 developer though this is in the nascent stage and see myself as part of the global Web 3 community as a coder. The new learnings about Polkadot, Substrate, Web3 and Rust have inspired me towards these new technologies. IBC Hackathon helped me get a new perspective about my future. I want to be a Web3 developer.

M Shiva Priya
Rishi UBR Women's College, Nizampet

Being a student who has already attended a few Hackathons, i believe that this Blockchain is going to help me gain more knowledge as it is one of the emerging technologies. After being part of this program for the past 7 days, I already see myself as a Web3 Developer.

Greetings connections,recently I attended digital India alt hack organised by IBC Media at Indian Institute of Technology,Delhi sponsered by Polkadot which was a 8 day program. It was an eye opener for me as i got oppurtunity to learn about emerging technologies which are web 3.0 and blockchain in the guidence of Prof. **Praveen Thakur** and CEO **Abhishek Pitti** .

I have gained very much from this hackathon and i will continue this journey with IBC media through CEP

Also got top into leaderboard of 5th day of the program.

💫 Team Virtuous bagged second position 🔥 at 'Digital India Alt Hack' event for being one of the most promising ideas for a startup in #web3 organised by **IBC Media** which was stretched as an 8-day Web3 hackathon at IIT Delhi

Congratulations 🎉 to my teammates **Manya Aggarwal**, **Soummya P**, **Pathak** as well as all the other contestants who participated with som coolest ideas I know.

Also had a chance to get involved in #firesidechat with **Praveen Tha** about the awareness of crypto and blockchain in GenZ community al **Nayan Lal**, **Apoorva Jha**, **Manya Aggarwal** and **Raghav Tyagi**.

Nice to connect with you all.

Cheers! 🎉

"Dreams become reality when we put our minds to it."
Thank you **IBC Media** for organising this event Alt Hack in IIT Delhi.Thank you **Echelon Institute of Technology** for giving us this wonderful opportunity to participate in this 8 days hackathon.
When I said dreams come true, two of my beautiful dreams become reality he First to explore IIT Delhi also got a chance to meet exciting people and learn r things from them.
Second, I really want to start my entrepreneur journey and here we got a chan propose our business idea about Water Management System using Blockchai Iot in real world scenario. Out of 405 participants our team got selected in top It was our pleasure to be a part of this roller coaster ride.
A big thank you to **Abhishek Pitti** Sir , **Praveen Thakur** Sir , and the entire tear IBC Media for organising such an amazing event. I'm grateful for the opportur be a part of it and would love to collaborate again and seek your guidance in future :)
At last I want to thank my team members **Manik Jain** and **Himanshu Drolia** fo there support and also to have faith in me.
