Boston Children's Hospital Community Education Initiative Resource Library

Welcome to the CEI Resource Library. These resources are geared towards school nurses and the families you work with. Many of these resources were developed in partnership with numerous providers across the Boston Children's Hospital network. Other resources from outside sources that have been recommended by CEI speakers are included as well. We will be updating resources frequently so please check back on a regular basis!

General Resources:

[Boston Children's Hospital Health Education Library](#)

[Boston Children's Hospital Youtube](#)

[Boston Children's Think First program-children](#)

[Boston Children's Think First program-Teens](#)
