Click the style names for examples of that style!

*Stylized pieces do not fall into the +75% per character, it's just +\$15 per noodle, button, or bean

General Prices: These are a base price, for a digital piece of artwork. You can print it for personal use, use for facebook profile pics, or upload on your account as long as you give clear credit. All prices are subject to change depending on the complexity of the piece and how much time will go into it. These are the prices for unpublished works for personal use, anything that is intended to be published or used for profit will be discussed and contracted.

If you don't have payment all at once, I absolutely can do payment plans for you.

- update 2/1/17: Please don't send money before getting a quote, as this can be very anxiety inducing.
