Nope - I despise the Israelis. If you want to see the post-apocalyptic vision of what Apartheid in South Africa would have looked like in 2020, visit Israel. The Palestinians have suffered for far too long - bomb it until the sand turns to glass...

Spencer Wells is no longer a faculty or advisory council member at UT. He previously had a courtesy, unpaid appointment as a part-time adjunct that did not involve teaching. That ended in May and was not renewed. We do not have any association with the views held by Mr. Wells.
