GROWTH KA THEKEDAR

3 ChatGPT Money Prompts

01 Find Your Biggest Money Mistake

Ask me 5 deep questions to understand my relationship with money, then reveal the biggest financial mistake I might be making without even realizing it.

Use: Paste in ChatGPT and answer all 5 questions honestly.

Result: Understand your money habits and possible mistakes.

02 See Your 5-Year Financial Future

Based on my income, spending habits, and financial decisions, show me where I could be financially in 5 years if I continue living the same way.

Use: Share your approximate income, expenses and savings when asked.

Result: Get a possible 5-year scenario, not a guaranteed prediction.

03 Make a 12-Month Money Plan

If you were in my exact financial situation, with my current income, skills, and resources, what are the 3 smartest decisions you would make to improve my financial life in the next 12 months?

Use: Share your goals, skills and basic financial situation.

Result: Get 3 personalized, actionable ideas.
