

Creepy shiver

Twigs off trees break as I walk over them a cold breeze goes threw and i shiver feeling like something bad is going to happen or someones watching me.I looked around to see if anyone was around I saw a shadow of something behind a tree so I looked behind the tree and no one was there.I carried on walking and the in one second there was this man that appeared right in front of me I screamed.He grabbed out a sharp object and grabbed my arm.Have fun this may hurt john said I punched him in the face and ran I ran faster than I ever had.

6 months later

It was Halloween and my friends wanted to go through the creepy forest I went through when I was younger and the man grabbed my arm.I told my friends the story of what happened to me when I was younger but they all thought I was lying.We all grabbed out bags of candy and took a deep breath and slowly walked in the forest hand in hand.

20 minutes later

We got to the middle of the forest and we got lost the forest is so big so we had no clue where to go and then all of a sudden Emily felt a creepy cold shiver.I new what was going on,He's still here we need to get out I yelled they all thought I was crazy.I saw his shadow behind a tree and grabbed Emily's arm and ran trying to find the way out and yelling back at them I told you the story of what happened to me im not letting it happen to Emily or anyone if you don't come you might all die i'm just saying and then he appears in front of us I told Emily to run and hide.What about you I don't want you to die because of me Emily said scaredly I wont dont worry about me go get Mia and Abby and run get out of this old damp creepy forest.he grabbed my arm and looked into my eyes and said you again you have ruined my chance to get a girl like her and destroy her life john said. Who are you I asked him he didn't respond to my question.I ducked down and crawled on the ground I got up so fast and ran for mylife I found Mia,Abby and Emily up in a tree and said really is that the best you guys could do they jumped down an ran with me Emily saw a way we could get out of this forest quickly but it has a lot of stuff on its path.

15 minutes later

We made it out and then we reslied Abby wasn't here. She must've tripped over or something. We sat down and waited for her outside of the forest because we did want to go back in there. We heard branches break off trees Emily checked the time on her watch and said it's midnight.Abbey walks out with her hair covering her face and her neck down and she also had cuts in her top and cuts on her arms,legs and neck. I reached out to grab my phone but then Abby makes a creepy sound.Make it rain make it thunder make lightning come out and after a couple seconds it started to rain and thunder and lightning came out.Maybe she's a witch or something Mia said I don't think witches are real Emily said to Mia I think there real Mia says anything can be real.Abbey slowly walks up to us and does a really weird scream and looks up at us and falls to the ground after a couple minutes she wakes up and yells something was in me like a ghost or something.We all ran back to Emily's house because we were all having a sleepover.

The next day

We all woke up to the loud bang in the basement.Emily and Mia grabbed a light and then we all walked down the basement.We looked all around us and then Emily started screaming we were all asking her what was wrong and then she started pointing at the roof.The man was in her house hanging off the roof with a weird creepy smile and we was saying hello i'm back your so happy i'll slice your neck.We all ran up the stairs and locked the door.Abbey picked up her phone and called our mums and the police.

5 minutes later

The police got here with dogs and ghost trackers.They told us to get outside and calm down Mias and Abby's mum was there also she buyed us a hot drink and some food we didn't eat the food we only drank the drink.I randomly got cuts on my arms.I started to think it's going to haunt us for life.We all heard a dog yelp and it wasn't any of the police dogs and no one saw any other dog go inside Mia,Mias mum,Abby and Abbys mum Me and Emily walked inside.The dog was yelping it was down in the basement were the creepy man was.I felt like it was a trap or the creepy man was hurting the dog.The others thought the dog was getting hurt.We walked down hand in hand and the man was gone.I Started

to think the man turned into the dog but then I didn't believe in that stuff. He shut the door somehow and it locked the dog turned into the man and I thought we would all be toast. He cut our wrists once and then we all fell kinda like we got knocked out.

Half an hour later

We all woke up in this damp old dusty house. I looked behind me and found the police, police dogs, and some other people knocked out sitting down leaning on the wall. I found a way out so I woke everyone up and we all snuck out the dogs barked at us for a second luckily the shutted up and we could get them out also. We all got a hotel and stayed together just to stay safe.

3 years later

It's been three years and he hasn't come back for us and we have used a lot of money trying to keep this hotel room. I think we might have to move to another one soon but we are not going back home for another year or to just in case it all starts again.
