Super Prompt Examples
Story Generator

This is an example of using "Super Prompt" to generate a prompt template for educators. In this example the task is generating a story for students to read.

You can read all about the super prompt in my blog post here: Super Prompt - An AI Prompt to Create AI Prompts

Super Prompt

Here is the super prompt that was used with each AI chatbot for this example:

> You are tasked with creating a detailed and adaptable prompt template for modern AI chatbots (e.g., ChatGPT, Google Gemini, Microsoft Copilot) that will be utilized by K-12 educators.
> - K-12 educators will copy the prompt template you create and then insert their own specific information, such as grade level, subject area, objectives, and more.

- The prompt template should be detailed and thorough.
- The prompt template should be written in clear, accessible language to ensure it is understandable by AI chatbots and easy for educators to use and adapt.
- The prompt template should be designed with the flexibility to accommodate a variety of educational settings, including different grade levels, subject areas, and teaching objectives.
- The prompt template should have clear indications where the educator should insert their own details, such as bracketed placeholders (e.g., [Insert Grade Level Here], [Insert Subject Area Here], [Specify Objective Here])
- The prompt template should be educationally and pedagogically sound so as to elicit useful responses from the AI chatbots.
- For this prompt template the task will be generating a story for students to read.
- Please generate this prompt template.

ChatGPT 4

Certainly! Crafting a detailed and adaptable prompt template for K-12 educators to use with AI chatbots involves ensuring it is not only clear and accessible but also flexible enough to cater to a wide range of educational settings, subjects, and objectives. Below is a prompt template designed for educators who wish to generate a story for students to read. This template allows for customization according to grade level, subject area, educational objectives, themes, character traits, and more.

Prompt Template for Educators: Generating a Story for Students

Educator Instructions:

Fill in the bracketed placeholders with the specific details related to your educational setting and objectives. Be as detailed as possible in your descriptions to ensure the AI generates content that is closely aligned with your educational goals.

Prompt to AI Chatbot:

Hello [AI Chatbot Name, e.g., ChatGPT, Google Gemini, Microsoft Copilot],

I am a [Insert Grade Level Here] teacher focusing on [Insert Subject Area Here, e.g., English Language Arts, Social Studies]. My objective is to engage my students in reading through a tailored story that not only aligns with our curriculum but also captures their interest and encourages critical thinking and imagination.

To achieve this, I would like you to generate a story with the following specifications:

- Grade Level: [Specify the grade level, e.g., 3rd Grade]
- Subject Area: [Specify the subject area, e.g., English Language Arts]
- Educational Objectives: [Briefly describe your objectives, e.g., to improve reading comprehension, to introduce historical events, to explore themes of bravery and friendship]
- Story Theme: [Insert specific themes, e.g., courage, friendship, adventure]
- Character Traits: [List desired character traits, e.g., brave, curious, kind]
- Setting: [Describe the setting, including time period if relevant, e.g., a magical forest, the future, 18th-century America]
- Plot Elements: [Specify any key plot elements or twists you want to include, e.g., a mystery to solve, a journey to embark on, overcoming a fear]
- Vocabulary Level: [Indicate the desired complexity of vocabulary, e.g., age-appropriate, challenging words to expand vocabulary]
- Incorporate Learning Material: [Mention if specific historical events, scientific concepts, or literary elements should be included, e.g., the water cycle, the American Revolution, metaphors and similes]
- Cultural Sensitivity: [Note any cultural sensitivities to consider, e.g., inclusive representation, avoiding stereotypes]
- Moral or Lesson: [Specify if there should be a moral or lesson, and what it should be, e.g., the importance of teamwork, the value of perseverance]
- Length: [Indicate the desired length of the story, e.g., short story of 500 words, a longer narrative of 2000 words]

Please ensure the story is engaging, age-appropriate, and pedagogically sound, fostering not just a love for reading but also critical thinking and discussion among the students.

Thank you!

End of Prompt Template

Educator Notes:

- Adjust the level of detail according to the specific needs of your class and the complexity of the story you envision.
- Consider following up the AI-generated story with activities, such as discussions, comprehension questions, or creative writing tasks that further explore the themes or lessons of the story.
- Review the generated story for appropriateness and alignment with educational standards and objectives before presenting it to students.

This template aims to streamline the process of creating custom educational content, making it easier for educators to integrate AI-generated materials into their teaching strategies.

Gemini Advanced

Absolutely! Here's a detailed and adaptable prompt template, designed for K-12 educators to generate stories using modern AI chatbots:

Prompt Template: Generating Engaging Stories

Overview

This prompt helps you partner with an AI chatbot to create compelling stories tailored to your students' needs and interests. The AI will handle the writing, while you provide the framework and guidance.

Instructions

1. **Define Your Target Audience**
   - **Grade Level:** [Insert Grade Level Here]
   - **Reading Level:** (Consider early reader, developing, fluent, etc.)
   - **Interests:** [What topics would your students enjoy?]
2. **Choose a Story Focus**
   - **Subject Area:** [Insert Subject Area Here] (e.g., science, history, social studies)
   - **Lesson Objective:** [Specify Objective Here] (optional, but helps focus the story)
   - **Theme or Moral:** [What idea do you want to explore?] (optional)
3. **Establish the Story Basics**
   - **Setting:** [Where and when does the story take place?]
   - **Main Character(s):** [Names, brief descriptions, and unique qualities]
   - **Central Problem or Conflict:** [What challenge does the character(s) face?]

4. **Outline the Plot (Optional)**
   ○ **Beginning:** [How does the story open?]
   ○ **Middle:** [What events or obstacles build tension?]
   ○ **Ending:** [How is the problem solved? What is learned?]
5. **Set the Tone**
   ○ [Should the story be funny, adventurous, suspenseful, heartwarming, etc. ?]

Instructions for the AI Chatbot

- I'd like you to help me write a short story suitable for [Insert Grade Level Here] students. Keep the reading level appropriate for my students. Here's the basic outline:
- **Setting:** [Copy from Step 3 above]
- **Main Character(s):** [Copy from Step 3 above]
- **Problem/Conflict:** [Copy from Step 3 above]
- **Plot Notes (If provided):** [Copy from Step 4 above]
- **Tone:** [Copy from Step 5 above]
- Please make the story engaging and consider the interests of my students.
- Consider including elements that connect the story to [Insert Subject Area Here] and, if specified, to the lesson objective.
- You can be creative, but please keep the content appropriate for elementary/middle/high school students.

Example: Generating a Story about Friendship for Third Graders

[Prompt as the educator would fill it out and submit to the AI]

Instructions for the AI Chatbot

- I'd like you to help me write a short story suitable for third-grade students. Keep the reading level appropriate for my students. Here's the basic outline:
- **Setting:** A colorful playground during recess
- **Main Characters:** Maya (a shy new student) and Ben (a friendly, outgoing classmate)
- **Problem/Conflict:** Maya feels lonely and doesn't know how to make friends.
- **Tone:** Heartwarming and encouraging
- Please make the story engaging and consider the interests of my students. You can be creative, but please keep the content appropriate for elementary school students.

Let me know if you'd like to refine this further before I ask the AI to generate the story!

Claude 3 Sonnet

Here is a detailed and adaptable prompt template for K-12 educators to utilize with modern AI chatbots when generating a story for students to read:

Prompt Template: Generate an Engaging Story for Students

I am a teacher working with [Insert Grade Level Here] students. My goal is to provide an engaging story for my students to read that is appropriate for their grade level and aligned with our current learning objectives in [Insert Subject Area Here].

The primary objective(s) for this story is/are: [Specify Objective(s) Here - e.g., teach vocabulary words, reinforce math concepts, explore historical events/figures, build reading comprehension, etc.]

To achieve these objective(s), here are some key requirements for the story:

[Insert Story Requirements Here - e.g., Incorporate the following vocabulary words: ………… Relate to the following math concepts: ………… Explore the life and accomplishments of: ………… etc.]

The reading level and content should be carefully tailored for [Insert Grade Level Here] students. The ideal reading level is [Insert Target Reading Level - e.g., 3rd grade, 550L Lexile, etc.]. Sensitive topics like violence, racism, etc. should be avoided or minimized unless directly relevant to objectives.

The tone should be [Insert Desired Tone - e.g., fun, inspiring, thought-provoking] to engage students' interests. The story should have relevant [Insert Story Elements - e.g., characters, plot, dialogue, descriptions] that connect to the stated objectives.

Please generate an original, high-quality story of approximately [Insert Target Story Length - e.g., 500 words] that meets all of the specified criteria. Proper grammar, spelling, and structure are essential. Once generated, I will review the story and make any desired modifications before providing it to my students.

Mistral

Title: AI-Assisted Story Generation for [Insert Grade Level Here] - [Insert Subject Area Here]

Objective: To engage students in a captivating and educational story that aligns with our current learning objectives in [Insert Subject Area Here]. The story should encourage critical thinking, creativity, and a deeper understanding of [Specify Objective Here].

Prompt Template:

Hello AI,

I am a [Insert Grade Level Here] educator focusing on [Insert Subject Area Here]. I would like your assistance in generating an engaging and educational story for my students. The story should be age-appropriate for [Insert Grade Level Here] and align with our current learning objectives.

1. Setting: Please set the story in a [Specify Setting Here, e.g., historical period, geographical location, fantasy world, etc.] that will help my students better understand [Specify Concept or Topic Here, e.g., life in ancient Egypt, the ecosystem of a rainforest, the principles of magic in a fantasy world, etc.].

2. Characters: The main characters should be diverse and relatable to my students. They could be [Specify Character Traits Here, e.g., children around the same age as my students, people from different cultural backgrounds, animals with human-like qualities, etc.]. The characters should demonstrate [Specify Characteristics or Virtues Here, e.g., curiosity, resilience, kindness, teamwork, etc.] as these are values we are currently focusing on in our class.

3. Plot: The plot should revolve around [Specify Main Conflict or Challenge Here, e.g., solving a mystery, overcoming an obstacle, achieving a goal, etc.]. The story should incorporate elements of [Specify Subject Area Here, e.g., science, history, mathematics, etc.] in a way that is engaging and educational. The story should also encourage [Specify Desired Student Outcomes Here, e.g., critical thinking, problem-solving, empathy, etc.].

4. Language and Vocabulary: Please use language and vocabulary that are suitable for [Insert Grade Level Here]. If possible, incorporate some [Specify Relevant Vocabulary Here, e.g., scientific terms, historical figures, mathematical concepts, etc.] that we are currently learning in class.

5. Resolution: The story should end with a resolution that reinforces [Specify Learning Objective Here, e.g., the importance of perseverance, the value of teamwork, the process of scientific inquiry, etc.].

Thank you, AI, for your assistance in creating this educational story for my students. I look forward to sharing it with them and engaging them in a rich discussion about [Specify Subject Area or Topic Here].

Best regards, [Educator's Name]

Microsoft Copilot

Certainly! Here's a detailed and adaptable prompt template for creating a story for students to read:

AI Chatbot Story Generation Prompt Template

Hello [AI Chatbot Name], I am an educator teaching [Insert Grade Level Here] students. Our current subject area is [Insert Subject Area Here], and we are focusing on [Specify Objective Here]. I would like to engage my students with a story that aligns with our educational goals.

Story Requirements:

- **Theme:** The story should incorporate elements of [Insert Theme or Topic Here], which is relevant to our current lessons.
- **Characters:** Please include characters that are relatable to [Insert Age Group or Grade Level Here] students, such as [Specify Character Types Here, e.g., animals, children, historical figures].
- **Length:** The story should be [Specify Number of Words/Pages], suitable for a [Insert Reading Duration Here, e.g., 10-minute] reading session.
- **Language:** Use language appropriate for [Insert Grade Level Here] students, avoiding complex jargon and ensuring clarity.
- **Educational Elements:** Integrate educational content that covers [List Key Educational Points Here], which will help reinforce our lesson objectives.
- **Engagement:** The narrative should be engaging and encourage active participation, possibly through questions or prompts within the story.

Additional Instructions:

- The story should have a clear beginning, middle, and end.
- It should teach a moral or lesson that is in line with [Insert Educational Value Here].
- If possible, include interactive elements or suggestions for classroom activities related to the story.

Based on these specifications, please generate a story that I can read to my students. Thank you!

Educators can fill in the placeholders with their specific details to tailor the story generation to their classroom's needs. This template ensures that the AI chatbot's response will be pedagogically sound and suitable for the intended student audience.
