1. Forward

The South Eastern Youth Football Alliance - SEYFA alliance is unique amongst all other area youth sports organizations based on these core beliefs:

- Each community's participation is impactful in delivering a positive experience for every player.
- Each player should be taught to play and participate above all else.
- The development of the player, not just in football, but in teamwork, community, and ultimately in life.
- Participation is more important to players than winning.

The purpose of the SEYFA community alliance centers around the unwritten rules, what many believe to be common sense but are often misaligned or misinterpreted from community to community. These provide the basis of our league and by which the official rulebook develops clarifications.
