Current Status

As of August 4th I am officially freezing this document to prevent random comments. It's in a state that it's useful enough as it is and requires too much effort to keep it updated. - Draa

Note: Tokyo Dome will be avoided as a mean to acquire the pokegal unless it's the easiest way. (Mostly to avoid NTR being the standard way to capture/train a pokegal since it results in low affection)

- 3) Stop at the door after the 3rd time, walk up and talk to her
- 4) Select yes and capture her

Comments:

Abilities wise:

- 1) Form Break - Ignore defensive ability (like ghost's physical immunity)
- 2) Inverted Nipples - Critical damage up

#111 Miu/Mew	No111.ミウ 	Acquire (Legendary)
- Draa - bgn		Refer to below detailed explanation

Details:

- 1) Get fellow's memory (from singer in City #5 (Night))
- 2) Equip on a pre-evolution pokegal
- 3) During evolution press space

Comments:

Trivia:

- 1) Abilities/Shiny/Starting skills are inherited from previous pokegal.
- 2) Base stats is unique to Miu (fairly low) and can only learn normal/wind based TMs

Strategy:

Inheritance is quite powerful for Miu, just the right combination of ability and skills can result in a nasty surprise for an opponent:

- 1) Ghost: Ethereal (ignore physical attacks)

Skills: 80% charm & curse, 50% confuse

- 2) Angel: Honorable battle (guaranteed hit for all skills on both side)

Skills: 100% charm & 100% confuse

- 3) Idol: Aura of Fame (Reduced chance to receive bad status effect)

The above are just some abusive examples. Miu is the most unpredictable pokegal and one of the best for the stunlock war. - Draa

Trivia:

- 1) Sprite remains purple even if shiny during battle, cannot do the same thing as Cat and see the shiny version from field
- 2) Due to u and wu sharing the same character in katakana, she should be called miumiu as reference to mew.
- 3) However, abused authorities as the author and officially calling her Miwumiwu - Draa

The shiny version is my favorite pokegal in this game - Draa
