Hello!

My name is Pruter Karben, I am a young and Marshallese gentleman from only Ratak chains where my parents are descended from. I was raised in one of the tiniest and most beautiful atolls of the Marshall Islands which is called Aelok atoll. My Clan (Jowi) is Jejjed. I enrolled in Kindergarten when I was seven years old and finished college when I reached 32 years old. My favorite food is Kwan-jin (breadfruit cooked on coals and scraped) with turtle meat. I always drink Jakaro (coconut juice) and face the east wind.
