PERMALINKS

When you are using the databases to find articles in the Kansas State Library Card online library, you have to use the PERMALINK to save the URL. The url's to your articles change all the time, and if you just copy and paste the url in the url (location) bar at the top of the page, your link will not work when you try to open the article again using that link!
Here are your directions:
1. First, open your article.
2. Next, to save the article, click on the permalink button under the tools bar on the right hand side of the screen.
3. Copy and Paste the Permalink to another document to save it.
Now you will always be able to get back to your articles.

Copy and Paste the permalink!
