CV-Template LLC | Front-end Developer/ Founder

- Enabling non-designers to create professionally designed CVs.
- With over 30000 users, a book publication, 2 government mentions, and a publication in the Knoxville News Sentinel, CV-Template is rapidly progressing in the online CV market.
- Created and designed the complete website and front-end application in JavaScript (now V3) with an AJAX interface to Laravel (back-end).
- Performed marketing tasks like SEO, backlink outreach, reporter outreach, direct mail marketing, and A-B/multivariate testing.

Notable Achievements: Created the #1 online CV builder with over 1,450,000 CVs created by users. CV-Template has become one of the most prominent online CV builders worldwide.

January 20xx—20xx

📍 Colorado, California
