Exam Schedules *(dates tentative and subject to change due to inclement weather days)*

Midterm and final exams are opportunities for students to demonstrate what they have learned over the course of the semester. Midterm assessments may be in the form of a traditional test, writing prompt, project, performance or case study. Teachers work in coordination with their curriculum partners to establish appropriate assessment practices ensuring consistency across common courses.

Midterm and final exams are 90-minutes long. Typically two exams are scheduled for each day, with a break in between. Makeup exam periods are built-in to the exam schedule for students that miss their exam for an excused absence. A detailed exam schedule will be emailed to families prior to exam week.
