

*Some of the bot's commands are intended for a specific Discord server.

What data does this bot store?

Guild IDs

User IDs

Role IDs

Why do we need data and why do we use it?

a) Guild IDs are saved for using custom commands (such as calling server moderation, etc.).

b) User IDs are also saved when using custom commands for a specific server (for example, submitting an application to server moderation).

c) Role IDs are used to manage roles on the server (e.g. user promotion)

Do we share your data with third parties other than Discord? No, we do not transfer data to third parties!

How can users delete data or how can users contact the owner of the bot? They can contact me, remodik, as my friend requests are always open.
