Overall styling

Looking at the Dell XPS 7390 2 in one line there is no difference compared to all other Dell XPS 13 inch models. Still a formal but minimalist design, the exterior is a metal layer made of Carbon Fiber. Edge bars, double anodized sides create a shiny, elegant and solid machine.

The special feature of this two-in-one laptop is that it can change many modes. Sometimes it folds up like a tablet, or stands upright without a support. The transition is very smooth due to the connecting slider between the body and the screen. The 180 degree folding looks very delicate and beautiful.

Dell Xps 7390 2-in-1" screen highlights

The American company is clever in updating the new XPS versions with a 13.4-inch screen with a 16:10 aspect ratio. Helps keep the device compact and moderate, but creates a wider and clearer viewing angle for you. The first thing that catches the eye is the borderless screen model with the camera cluster located above the upper bar. Dell XPS 7390 2 in 1 is equipped with anti-glare technology, allowing the screen to display well in high-brightness environments. Convenient screen opening with one hand, more stable when moving or using touch.

with Full HD resolution, with HDR support, more than 500 nits brightness. Integrated Dell Cinema also helps the ability to watch videos, applications such as Netflix, Vudu, Youtube,... Realistic.

Touch pen

The Dell Premium Active Pen is also a remarkable detail. a companion has a Dell XPS 7390 2-in-1 laptop, which offers very low latency. This is a tool for designers and stylists to have their own egos. Stylish in appearance, the pen is compact and easy to carry.

Amazing performance
