August Maintenance Report

- The new maintenance truck has been fully upfitted and looks great.

- The Goza walk-in cooler and walk-in freezer both went out a few weeks ago but both have been repaired.
- The Peake walk-in freezer also went out last weekend but it has been repaired.
- We still do not have any HVAC/maintenance position applicants. Toby Daniell and Matt Campbell have been working after hours to help us get some of these a/c units working before school starts.
- The windows in the press box at Badger Stadium have been replaced with windows that open. This will allow the band to host marching competitions.
- The Rosenwald parking lot has been repaved.
