

# Diafragma's Terms of Services

You must be of legal age (18+) to commission me.

## -Are you open for commissions?

Check my [Trello to see how my Queue is going](#). I try to keep my queue no longer than 10 comms at a time. I'm often open otherwise.

## -What I Will and Won't Draw

What I will draw:

- Anthros
- Ferals
- Wholesome themes
- Sad themes
- NSFW
  - Straight stuff
  - Gay stuff~
  - Maws
  - Consenting Mild Vore

What I won't draw:

- Overly Complex Backgrounds
- Political Themes
- Slanderous/Hateful Themes
- Underage
- Any sort of unwilling sex
- Extreme Violence
- Extreme kinks such as (but not limited to):
  - Watersports
  - Scat
  - Gore
  - Unbirth
  - Oviposition

*Can I commission your sona?*

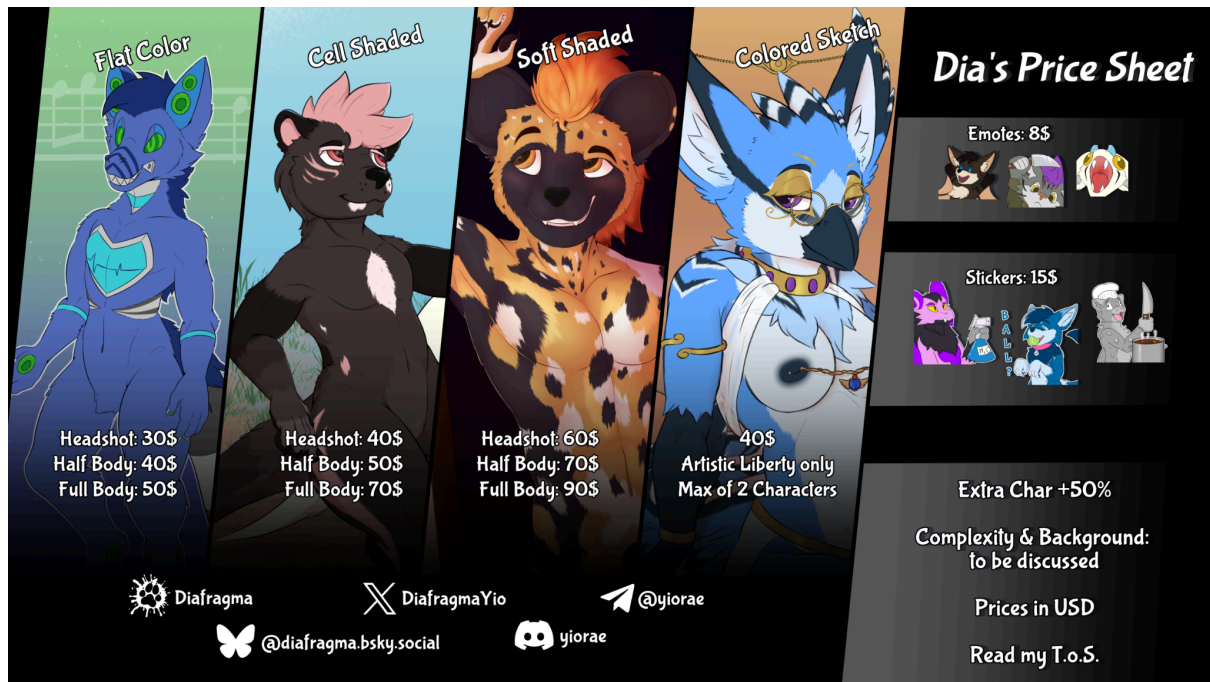

I'm always happy to draw myself, including NSFW but that last one has some mild restrictions:

- I have a strong preference for being the top.
- I bottom only if you're a friend and it has to be wholesome if I am to be portrayed submissively.
- I have no issues in being just a bystander in a public scenario

I reserve the right to refuse any commissions that I'm uncomfortable doing.  
You can always ask me at any of my communication channels if you're unsure.

You can find examples of my art at the bottom of the T.o.S.

## -Prices

All payments must be in PayPal or PIX (for Brazilians).

All prices are in USD.

Payment is expected 48h after the final sketch has been approved. Failing to do so pushes your commission to the bottom of the queue.

Each **Additional Character** increases the price of the commission in 50% up to a max of 6 characters total. More than that is up to my discretion how much more it will be.

**Background** and **Complex Characters** are priced on a case by case basis.

**Wings** may be subjected to a complexity tax depending on how much of the scene it is going to fill or how complex it can be. Feathery wings are more likely to fall under this category than a bat/dragon one.

**Colored Sketch** is an experimental style, with heavy use of artistic liberty. It will always be an image with minimum props and a potential gradient background.

It will always be either a full body or a half body image of the characters, wings will be drawn with minimum details.

You can give me a general idea and if it's SFW or NSFW, I'll work based on that.

**Colored Sketch** payment is expected after the rough draft has been sent.

## -Refund Policy

The amount refunded will depend on the type of commission and the current stage of the drawing:

For **Colored Sketch**, **Emotes** and **Stickers**:

All payments are final. No refunds will be made.

For **Flat Color**:

You're entitled to 50% of the total value until the end of the lineart phase. No refunds will be made if the coloring process has begun.

For **Cell Shading** and **Soft Shading**:

You're entitled to 50% of the total value until the end of the coloring phase. No refunds will be made if the shading process has begun.

The only exception is if I, by any reason, cannot complete your commission. You're entitled to 50% of the total value on all styles.

## -Turn Around Time/Queue Order

I don't work with time sensitive commissions because I like to take my time.

Once the sketch has been approved, it can take from 4 days to a week for a full body, soft shaded piece to be done. Character complexity and backgrounds can easily increase that time so please, be patient.

I mostly work on *First Come, First Served*. You may have more than one commission in my queue but they'll never be worked consecutively (unless you're my only commissioner). Some commissions may hop ahead if their commission is significantly smaller in comparison with the current one being worked on.

Remember you can always check the [status of my queue on Trello](#).

## -WIP & Changes

For **Flat Color** and **Emotes**, you'll get a sketch for approval.

For **Cell Shading** and **Soft Shading**, you'll get the sketch for approval and a WIP when the flat colors are done.

Extra WIPs can be requested at any time if the commissioner desires.

**Colored Sketch** is the only one that doesn't come with a sketch approval phase. You'll get a rough draft of the pose I plan to work on. You may throw tiny suggestions but the pose is final.

Small changes (accessories, body markings, facial expression) are fine during the sketch phase.

Big changes (position change, different PoV) will only be done after payment has been sent.

After the sketch has been approved, only small changes are allowed and to a limited number of times before the shading phase. No changes are made once the shading phase has begun.

Retouching of a final painting will only be made if it was my mistake such as forgetting a key feature or using the wrong color.

## -Miscellaneous

You'll get the full PNG and a smaller resize of the main art.

The rights to the art belong to you and me only, for whatever use.

You are NOT allowed to remove my signature or claim it as your own.

### -Communication Channels

You can send a message [to my FA](#), throw a [DM to my Twitter](#) or [Bluesky](#). Befriend me on Discord (yiorae) or [Telegram \(@yiorae\)](#). There's always [my email](#) if all else fails. Don't be afraid to ask!

*~By commissioning me, you abide by my Terms of Services~*

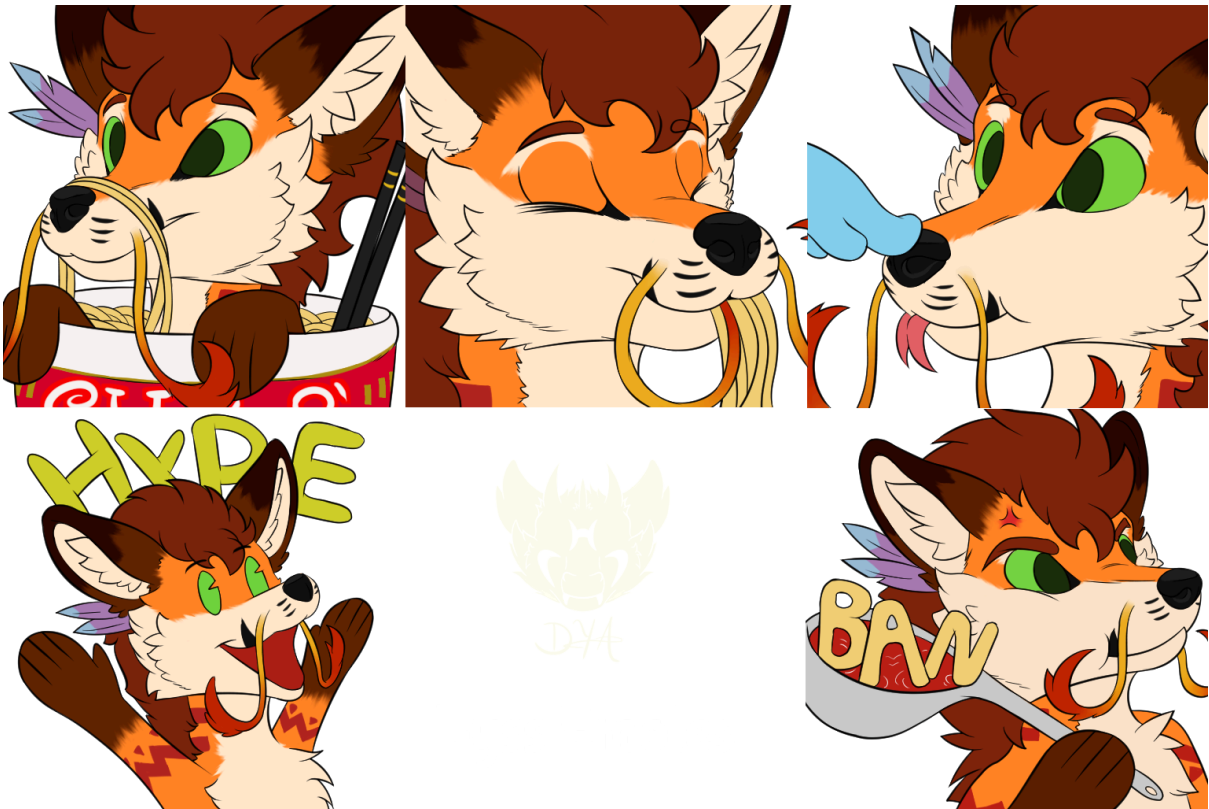

*~Any detail of the ToS can be changed without prior notice~*

*~Last updated in 10 March, 2025~*
