

Updated 2/3/25

LEAGUE:

Tri-Sport Challenge--The decathlon of Pennant Chase!

All 3 sports draft in one combined draft. You draft whatever player in whatever order you like. You can draft all of one sport, rotate, go with the best available athlete, lots of strategies. You will fill up your teams in the three leagues simultaneously in whatever order you choose.

Basics: Injuries will be on; training/slump buster/coaching will be on.

DRAFT:

52 total picks to be made- 14 football, 12 basketball, 26 baseball.

Draft will be conducted via a shared document. You will find the draft document under "Links", it is used to make your selections. You will first sign your draft pick as a free agent, then after making the selection you will go to the draft sheet and note your pick. Double Picks- if a player is selected the 2nd time, the excel box should turn red.

***If you don't sign player in league please enter unsigned in comments section.

Draft times will be at the same time every day from 7 am to 9 pm pst, **The correct time is listed on top of sheet**. If it is your time to pick, just make your pick (you may also make your pick after the previous owner picks, regardless of time). If an owner misses a pick, they can make their picks later. Just pick when you can get back to it. Others will continue to follow their time to pick regardless, no waiting if the owner misses. The honor system is the only enforcement of this.

After a certain number of rounds, 2 picks will be made at once...draft times will remain the same. The last few rounds will be 3 picks at a time.

END OF DRAFT:

Signings and drops are turned Off at 7:15 PM pst on the last day of draft.

1st day after- adds and drops are turned on @ 6 AM PST; set lineups

2nd day after- Season Begins

Special Notes:

Defensive teams (NFL)- you will pick the team on draft sheet, and commish will add it to your team. **Owner can reduce the defensive roster to 20 players. You CAN NOT pick up defensive free agents.**

Running backs (NFL)- you will pick the running back. Sign them on draft sheet and in the NFL league. The offensive line is assigned for each team by commish, normally within 1 day.

Roster:

We double check league rosters during the draft to keep the free agent database up to date and accurate, and to prevent double picks. This does happen, and if it does, the early pick will retain the player and the person that made the double pick simply

chooses another player. If anyone wants to assist with this, I can make you a co-commish.

Free Agents:

normal free agency: You may swap out your defense with a different team once a season

Trades:

Draft Picks can be traded. Both owners must sitemail commissioner the details of the trade.

You can make interleague trades. Ex: OJ Simpson for LeBron James.

Team Names:

Would like the three team names to show continuity. Same team city (or first part), then separate team name (2nd part). This makes it easier to score total points and rank teams too.

League play:

Games will play just as a normal auto league plays. It is a quicker time between games. Goal is to have the seasons all end at around the same day. 2 weeks for the regular season.

Sim Times for Each sport

mlb 162 games 3 hour Each team will have 4 days off during the season, randomly selected.

nba 82 games 6 hour

nfl 22 games 1 per day

Playoffs game times are every 2 hours. One round per day.

All playoff position ties decided by Pennant chase auto playoff system

1. head to head
2. power rankings
3. point differential

Playoffs:

Day off granted for each team before playoffs begin

Best of 7 except for single elimination in football

With 12 teams- the top 8 will make playoffs

Overall Champion Points:

Teams gain points for placement in standings along with bonus points for playoff series wins. Will have a running document to show total point leaders each week or so.

You will earn 1 point for last, and count up to first place depending on the number of teams. Ex: 12 points for first with 12 teams.

All teams involved in a tie will get the higher of the points. Example: with a 5 way tie for 3rd place in a 12 team league...they will all get 10 points for overall standings. They will be seeded by tiebreakers, but tie won't affect points.

Playoff points:

First round series win---1 point

Semi final series win --- 2 points

Champion ---3 points

A tie at that point will force a single game series in each sport between the two tied teams. whoever gets 2 wins is the champion.
