

# Committee of Interns and Residents *SEIUHealthcare*

We, the members of the Committee of Interns and Residents/SEIU Healthcare (CIR) at Mass General Brigham (MGB), have dedicated our lives to providing safe, compassionate care, training outstanding future physicians, and excelling in research.

After we unionized in June 2023, MGB began our relationship by cutting departmental benefits in **violation of federal labor law**, walking back their promise that the \$10,000 stipend was solely to offset cost of living.

Since the beginning of “good faith” negotiations on December 11, 2023, MGB has:

- **Blocked** a pay adjustment that would cover cost-of-living increases in the Boston metro area, instead presenting a salary model that represents a cut to real wages.
- **Refused** to pay for required licensure and exam fees .
- **Rejected** reasonable proposals that guarantee residents and fellows religious, cultural, or any holiday time.
- **Denied** guaranteed access to both clean, vermin-free call rooms and dedicated, private lactation spaces.
- **Failed** to guarantee adequate staffing or limit non-physician work so that residents and fellows can focus on providing timely critical care
- **Rebuffed** our proposal to increase access to paid sick and family leave, despite MGB’s claims of hosting family-friendly residency programs
- **Dismissed** our LGBTQ+ and age-inclusive fertility policies, including egg preservation.

**We now call on MGB** to prove to us that trainees are valued by negotiating a **fair and equitable contract**. We ask that they do so no later than September 30, 2024 as our residents and fellows are facing ever rising costs of living with the current contract.

We remain committed to collectively bargaining in good faith for the benefit of our trainees, our patients, and our communities. We ask that MGB do the same.

In solidarity,  
The MGB House Staff Union
