Benefits, Features, & Angle

What is Massfluence?

Massfluence is a groundbreaking app that creates next-generation sites that do the hard lead generation, product selling, & community building for you automatically.

In a click, auto-build sites with viral communities that grow via gamification for passive leads while simultaneously selling video courses & products to members on the site!

This disruptive app comes with agency rights & technology, letting you charge monthly fees to other businesses that understand they need to build their 'tribe' online to survive a possible upcoming recession.

Finally, help small businesses ditch dying ads & frustrating funnels for an all-in-one site building & lead generation solution.

Angle:

The only small businesses succeeding in online marketing post-pandemic are the ones building a 'tribe' of passionate followers & fans.

'Shiny' tools & tactics just don't cut it now + ads & funnels are confusing & expensive.

Potential customers ONLY want to do business with brands they know, like, & trust today...

& brands building engaging online communities are getting leads & sales w/ ZERO ad spend.

Problem is, building a 'self-selling' community is time-consuming & ULTRA expensive still.

- X Multiple discussion group tools & moderators are required
- X Facebook Groups are polarizing & distracting
- X Kajabi & course builders are too expensive
- X Additional 'gamification' apps to refer new members are needed
- & more.

That's why we developed Massfluence.

Massfluence is a groundbreaking app that creates next-generation sites that do the hard lead generation, product selling, & community building for you automatically.

In a click, auto-build sites with engaging communities that grow via gamification for passive leads, while simultaneously selling video courses & products to members on the site!

[Massfluence Your Questions Answered (Biggest Agency Opportunity You'll See)

Massfluence QnA - Don't Miss Out on the Easiest Agency Sales You'll Make

I've been telling you about a revolutionary agency app just launched called Massfluence that builds 'next gen' sites that get the leads & sales FOR YOU.

Since this is such a revolutionary & innovative opportunity, I've called the Massfluence creators & got some answers to your most common questions:

Q: How Much Can I Charge as an Agency?

Buyers are charging \$500+ per month easily for this type of service, targeting industries that want to build viral communities like pet shops, gyms, health, & tons more.

Q: What makes this different from other site builders?

A: Regular websites require you to send leads and traffic to them. Plus work hard on optimizing conversions. Plus, you need to pay for expensive site builders if you want to sell products from your site.

Massfluence does this for you as it gets leads for you with gamification communities, allows you to sell any product, and does the 'hard selling' for you with built-in social proof and referrals.

Q: How do I get the community members?

A: The great thing about Massfluence is it does the heavily lifting getting more community members for you on autopilot. There are tons of features to make your viral community fun and engaging, and it comes with gamification & viral referral technology that rewards initial members points that refer other members to the group.

Q: Do I Need Community Moderators?

No, Massfluence's advanced spam & bot protection will allow your group to grow organically, just check in here & there.

If you do want a community moderator & the business you're working with doesn't have them, you'll get access to cheap, DFY community moderators you can use during the earlybird special.

Q: Where Do the Massfluence Site Clients Come From?

You'll get VIP training on how to get the clients to contact you.

Q: Is There Detailed Training?

Yes! Massfluence is super easy to use & there are detailed training & tutorials for you & small business customers + 24-7 support.

The price will be increasing soon so make sure to get access here now:
