Monday 15 April: Extinction Rebellion's International Rebellion to begin in over 80 cities across at least 33 countries

- ***Tens of thousands of people in more than 33 countries across six continents will stage a global rebellion to raise the alarm about the Climate and Ecological Emergency that could signal the extinction of the human race if we don't act***
- ***Groups across the world will disrupt 'business as usual'. Ordinary citizens, terrified by the threat we all face to our future, will risk arrest and imprisonment by blocking bridges, roads, harbours and transport systems. Die-ins, cry-ins, funerals, banner drops, 'blood' spilling, art and theatre will be part of a festival of global protest***
- ***Day three of the Rebellion (Wednesday 17 April) is dedicated to Via Campesina's International Day of Peasants' Struggles with actions highlighting issues of land use, environmental justice and food security***
- ***Rebellion aims to force governments to agree to Extinction Rebellion's core demands to tell the truth and declare a Climate and Ecological Emergency, to halt biodiversity loss, reduce greenhouse gas emissions to net zero by 2025, plus create and be led by decisions of Citizens' Assemblies on climate and ecological justice***
- ***Currently there are 331 groups across the world in 49 different countries with a high concentration of groups (5+) in the UK = S+E+W (121=8+101+12), USA (38), Germany (32), France (19), New Zealand (11), The Netherlands (10), Canada (8), Spain (8), Australia (7), Ireland (6), Sweden (6), Ghana (6), Norway (6) and Finland (5).***

This Monday 15 April, Extinction Rebellion's International Rebellion will begin across every human-inhabited continent on Earth, as ordinary people in at least 80 cities in more than 33 countries call upon their governments to take decisive action on the climate and ecological emergency. To bring them to the table, people who are willing to risk their freedom, will peacefully shutdown capitals and other cities, disrupt business as usual and grind economies to a standstill.

A host of nonviolent protests are planned including occupations of various public spaces and the blockading of bridges, roads, harbours and transport systems. There will also be creative actions including die-ins, displays of grief or 'cry-ins', funeral processions, banner drops, Blood of Our Children actions involving the spilling of 'blood' at strategic locations, plus street art and theatre.

The International Rebellion is intended to force governments to agree to Extinction Rebellion's demands. These differ between countries, but at their core include that governments and other institutions must tell the truth and declare a Climate and Ecological Emergency, must act now to halt biodiversity loss and reduce greenhouse gas emissions to net zero by 2025 and must create and be led by the decisions of Citizens' Assemblies on climate and ecological justice.

Melbourne in Australia will be the first city to start. Highlights of other global actions include displays of 'beautiful grief' and 'rising tides' in Aotearoa (New Zealand). In Germany, people will focus on Hamburg harbour with swarming roadblocks. The Netherlands will see a Blood of Our Children action, swarming, and a bridge blockade. In France, there will be swarming and blockades across Paris and other cities, with a 'Blood of Our Children' action at the National Assembly. In the USA, at least 25 cities will participate in actions focusing upon the message to tell the truth, including species funerals, die-ins and street theatre involving giant puppets.

Miriam Robinson from Extinction Rebellion Melbourne said: *"It's time to declare a climate and ecological emergency. We are in the midst of the sixth mass extinction, but the government has been pouring billions of dollars into fossil fuel infrastructure – more gas hubs, ports, coal mines and roads, while sadly neglecting and degrading the natural world. On the day before the election was called the so-called 'Minister for the Environment' signed off on a water licence for a massive new coal mine, the Adani Carmichael mine, which would extract three trillion litres of precious ground water from beneath drought-stricken Queensland."*

In the UK - where Extinction Rebellion was born just five months ago before going global - people will be blocking around the clock four iconic strategic locations in central London, creating a festival atmosphere that focuses on the emergency and a vision for the future, as well as escalating the creative disruption across the capital day by day.

International Day of Peasants' Struggles
Day Three of the Rebellion (Wednesday 17 April) will be dedicated to Via Campesina's International Day of Peasants' Struggles. Protests will highlight the links between our food system, land use, climate chaos and the ecological crisis. Peasants contribute least to climate change and the ecological crisis, yet are at the frontline of its impacts while also holding many of the solutions, leading the struggle for food sovereignty, food security and agroecology. People in Ghana will plant fruit and nut trees in public spaces in solidarity, while in central London one of the blockades will be dedicated to food security, with speakers from the Landworkers Alliance.

Yen Chit Chong, from London said "*This is the most important moment in all of history. The fate of humanity and of all life on the planet stands on a knife's edge. Already, countless people and species are dying and it has only just begun. We are heading for an apocalypse and unimaginable horrors the like of which have never been seen. If we don't take real, drastic action now then quite literally all is lost.*

"The governments of the world have failed us and continue to fail us. They seem utterly divorced from the reality which the scientists warn is bearing down upon us and preoccupied with furthering the same aims and pursuits which have brought us to this head. If we are to save ourselves, then it is up to ordinary people to force them to change their ways. This our last best shot at survival. The success or failure of this Rebellion determines whether we all live or die. Even if the odds are stacked against us, we still have to try. It is time to take a stand."

Ghana

Accra

- Event Title: **“YENARAASASESAYOOO! Ghana in Pan-Afrikan Internationalist Stepping Up Towards GERROV”**
- Facebook: **SMERJAPIC-WA Facebook and GILOGCAL Facebook Pages**
- When and Where: Times TBC, activities of the International X Rebellion are planned to commence with an action in Parliament House in Accra, the capital city of Ghana. This will be following on from the Thursday, 11th April 2019 knocking on the door of the office of the United Nations Resident Coordinator and Chief Representative of the United Nations Development Programme (UNDP) to raise an International Community alert with a view to mounting precautionary vigilance against the violence of state and non-state actors that usually gets criminally perpetrated with impunity upon citizens who dare attempt to exercise their human, peoples’ and Mother Earth rights in Ghana today. Spearheading this UNDP Door Knocking event are the International School Strikers in Ghana who are organising themselves innovatively and acting with their own youthfully vibrant creativity in carrying out the Extinction Rebellion Friends of Greta Schools Alarm Whistling Exercise (XR-FOGSAWE).**“YENARAASASESAYOOO!” can be translated to mean “Our Mother Earth For All Freedomfighting” and “GERROV” is the “Grand Extinction Rebellion Rendezvous of Victory”.** The list of planned International X Rebellion events, which are being coordinated in Ghana by the VAZOBA Afrika and Friends Networking Open Forum, under the umbrella of the **Stop the Maangamizi and Extinction Rebellion Joint Action Provisional Interconnexions Council for West Afrika (SMERJAPIC-WA)**, include the following highlights:-
    - **Tuesday 16th April YENARAASASESEMKA With XR-FOGSAWE in the Ghana Parliament:** Launch of the Annual International Mother Earth Month Climate Emergency “YENARAASASESEMKA: Our Motherland Big Conversation” of a Youth Internationalist Parliament of Humanity Assembly of Accra (YIPHA-Accra) Delegation with the Ghana Parliamentary Committee on Environment, Science and Technology at Parliament House, Accra, Ghana.
    - **Tuesday 16th April** Young People in West Afrika, taking action with Extinction Rebellion are going to the Ghana Parliament on this day, to demand that the Ghanaian government engages in serious dialogue and action with them around the climate emergency and other ecocide and genocide. So we're going to the Ghana High Commission on the same day to demand that they address the issues these young people in Ghana are raising. In taking this kind of action, these young people in Ghana are putting their lives on the line, and our presence at the Ghana High Commission can also contribute to increasing security for them.
    - **Wednesday 17th April, La Via Campesina Banner Raising for Food Security Ceremony in Tanyigbe in honour of the International Day of Peasants’ Struggle:** Launch of the Annual International Mother Earth Month Pan-Afrikan Internationalist Salute of the La Via Campesina Banner to highlight Food Security Concerns of Afrikan Peasant-Farmers and their Communities on the campus of the Tanyigbe Community Basic School, Atidze, Tanyigbe, in the Ho Municipality of the Volta Region of Ghana
    - **Thursday 18 April,** Communities of Resistance in West Afrika are taking incredible action with Extinction Rebellion, linking it with their social movements to end the ecocide, genocide and enslavement, but in taking this action, they are risking being murdered, kidnapped or 'disappeared'; the Ghanaian Government is complicit in

these levels of violence, which have recently become even more extreme, so we're going to the Ghana High Commission on Thursday 18th April, to demand that they address this, and to let them know that we're watching, so that they know they can't get away with any kind of direct or indirect violence against our colleagues and friends in West Afrika.

- **Saturday 20th April, YAYOKPAKPA Rally With TOTROKUSAFO-KCORSDAF at the Agomenya Market in Krobo-Odumase:** Launch of the Annual International Mother Earth Month "YAYOKPAKPA Sweet Mother Earth Rally for Climate Emergency" of the TOTROKUSAFO-KCORSDAF, in Internationalist Solidarity with the Agomenya Market-Women and their Communities of Resistance, in the historic Agomenya Market of Krobo-Odumase in the Eastern Region of Ghana
- **Sunday 21st April, Easter Sunday Earthrise in Resurrection with Christ Communion Sharings:** As for example, the "Laudato Si" promotional sharing of the 24th May 2015 signed and 18th June 2015 published Second Encyclical Message of Pope Francis, "On Care for Our Common Home", by SMERJAPIC-WA Activists of the 28th December 2018 launched Communion Action Link for Laudato Si (CALLS), in collaboration with the Catholic Youth Organisation (CYO), the Pan-Afrikan Catholic Environmental Justice Emergency Action Communion of Laudato Si (PACEJEACOLS), the Global Catholic Climate Movement (GCCM), the Christian Climate Action in the United Kingdom (CCA-UK) and the Rendezvous of Victory InterFaith Study and Action Network (ROVIFSAN).
- **Monday 22nd April International Mother Earth Day Protect Our Species Actions:** Various actions to protect species and biodiversity in diverse community environments throughout Ghana and West Afrika.

Turkey

Istanbul

Time: 13:30 to 19:00.

Beginning from the International Rebellion week we will start to make non-violent protests and activities. For the 15th April, we are planning to make demonstrations in multiple locations in Istanbul.

We will start by reading the declaration in the city centre, afterwards we will divide into groups and go to the Anatolian side of Istanbul. There, we will go to the sea side and hand out flyers and Halva - a Turkish dessert which is traditionally given to the people after funeral ceremonies.

With the theme of this demonstration being mourning, we will have a chance to chat with people about climate change and Extinction Rebellion. Also, we will paint the streets, put stickers and hang flags.

Australia

Melbourne

Monday 15 April 2019. 7am.
Blockade of a major road in peak rush hour
In Australia, we are in the midst of a national election campaign. We will be calling on election candidates to declare a climate and ecological emergency. To underline our determination to achieve a declaration from the incoming government, we will be supporting rebels in London by risking arrest to blockade a major road during the morning peak. The road is a massive traffic sewer funneling cars into the city from suburbs with poor public transport options. At the site of our blockade there is a major bike path. We will be opening a path across the traffic to allow cyclists a faster than usual trip into town.
Spokesperson Miriam Robinson says: *"It's time to declare a climate and ecological emergency. We are in the midst of the sixth mass extinction, but the government has been pouring billions of dollars into fossil fuel infrastructure – more gas hubs, ports, coal mines and roads, while sadly neglecting and degrading the natural world. On the day before the election was called the so-called 'Minister for the Environment' signed off on a water licence for a massive new coal mine, the Adani Carmichael mine, which would extract three trillion litres of precious ground water from beneath drought-stricken Queensland."*

Camp Out for Climate.
We will make our presence known at Victoria's Parliament House in peaceful and fun-loving protest – with the aim of creating an ongoing, fortnightly protest that will increase by one extra night each time, reaching permanency if needed. Our aim? To confront our government and demand emergency action on climate change. Our earth is dying. We will not stand by and let this unfold. We invite all who value an inhabitable planet to collaborate with us in this peaceful, but distinctly disruptive and visible action. Our intention is to create an atmosphere of heartfelt and festive defiance, replete with music and art spaces, skill-sharing and symbolic seed-planting for the future we hope to safeguard. Families are welcome. We will migrate to the nearby Treasury Gardens if our numbers require more space. Designated conscientious protectors will be keeping vigil in shifts

throughout the night. We will provide a briefing for all participants upon arrival and provide you with a wristband to signify your participation and help keep us safe as a group.

ReAct: Climate Code Red

This action is jointly hosted by 17 groups including Frontline Action on Coal and Extinction Rebellion groups in Bundjalung - Northern Rivers, Sydney and south-east Queensland.

This April, rebels are calling CODE RED ON CLIMATE and going to the front lines to stop the Adani coal mine before it starts! Between the 19th April – 19th May, grassroots groups, artists, musicians and skill sharers from across the continent are converging on Central Queensland for a month of direct action, training, workshops and secret shows from some big name musicians in opposition to the dangerous Adani Carmichael coal mine.

Join us at #BlockadeAdani, to take action against the fossil fuel barons whose corrupting political influence is driving us deeper into a climate emergency. Australia is ranked as the world's worst performer on climate action. We must keep all Galilee Basin thermal coal in the ground and rapidly phase out domestic use and export of fossil fuels. Come and be a part of the fight for survival. Join us to REACT!

Kjipuktuk/Halifax, NS
Members of XR Nova Scotia will converge on Kjipuktuk/Halifax to deliver our demands to local media and to Nova Scotia's private power corporation. Likely hundreds will march to the CBC and Chronicle Herald to follow up on our demand that their editorial boards treat the climate crisis as an existential emergency. Afterwards XR NS will march across town, blocking major roads, to the waterfront for a picnic and music, before following up on demands for the Board of Nova Scotia Power/Emera acknowledge the climate emergency and implement a plan for net-zero GHGs by 2025 and a citizens assembly to oversee plan development and progress.

XR NS media coordinator Patrick Yancey: *"If a meteor was hurtling towards the earth, and we had ten years to act, how would the media respond? The crisis would be the top story, with 24/7 coverage. Politicians wouldn't be able to talk about anything else. Meteor deniers would get no voice. It's clear that our media outlets are failing us and future generations. They must start covering the climate crisis as a real existential threat."*

"At the same time, Nova Scotia Power is clear-cutting forests for biomass and falsely counting it as renewable. They also plan to spend hundreds of millions to extend coal plants into the 2030s. The IPCC report has been out for months, but they have yet to acknowledge the crisis and change course."

Extinction Rebellion Quebec will kick off its rebellion week by inviting the premier, Mr. Francois Legault, to a school of life. Conveniently, the school of life will be hosted right in front of his Montreal office, on McGill College and Sherbrooke.

Climate action is now a matter of life and death. Yet, on the dawn of the 6th mass extinction, Mr. Legault wants to hear nothing of it. Since he will neither educate himself on the matter, nor alert the Quebec population, we have decided to do it for him.

Over the course of the week, we will evaluate his performance at the school of life and communicate his result, loudly. Details to come…

Monday April 22: DAY OF ESCALATED ACTION

___

San Francisco, Bay Area CA

Monday 15th: San Francisco Bay Area, CA : **Sound the Alarm!**

When and where: 4pm, Location: UN Plaza

Facebook: https://www.facebook.com/events/411044969659259/

Details: We are Extinction Rebellion, and we declare that when our children call us to action, we will answer! Join us on April 15th to rise up for a living future. We will not gather to beg our leaders to care. We will gather to declare that change is coming, whether our governments like it or not. This is an emergency and it's time we all started acting like it, adults included. So come out on April

15th as we raise our voices, our trumpets and cookware, bike bells, and boomboxes with the truth on our lips! to declare this emergency for what it is and to demand that our governments worldwide do the same.

Sacramento

Saturday April 13: Zombie Walk at 2nd Saturday Art Walk

In solidarity, Extinction Rebellion Sacramento

Washington, DC

Extinction Rebellion Washington DC

When and where: Sunday April 16 8AM, Spirit of Justice Park C St SE, Washington, District of Columbia 20024

Event: https://www.facebook.com/events/401248130656140/

Details: Join us for the 31st annual instalment of The Climate Games! Since the late 1980s, our nation's leaders have ignored climate science and played games with the future of the planet,

valuing fossil fuel donations over human lives. Will the forces of Greed and Capitalism maintain their 30 year winning streak? Or will underdog Team Earth finally claim victory?

This year's Climate Games will be hosted by the Republican National Committee, which is the main fundraising arm of the Republican Party and plays a key role in determining national Republican strategy. In response to recent calls for the "Green New Deal", the only policy proposal on the table that even comes close to addressing the climate crisis, the Republican Party has vowed to wage war against the proposal, belittling it, mocking it, and lying about it at every turn. We could think of no organization more worthy of hosting the Climate Games than the RNC. Their headquarters might even shut down to help celebrate the event!

This year's event will include numerous climate-themed games, such as Climate Catastrophe Dodgeball and Planetary Volleyball. All attendees will have an opportunity to join Team Earth or Team Greed. The pre-game festivities will begin at Spirit of Justice Park, New Jersey Ave and D St SE at 8:00am. Take a half day off work, call in sick, do whatever you need to do to be there. You won't want to miss this!

The Climate Games are part of the International Week of Rebellion taking place in more than 33 countries around the globe, and dozens of cities in the United States. Humanity is now confronting the climate crisis like never before.

Denver

Monday April 15: Declaration of Rebellion

When and where: 4:30pm, 1437 Bannock St, Denver, Colorado 80202, Denver City and County Building

Details: At 4:30 we will be meeting outside the Denver City and County Building before attending the monthly general public comment session and declaring our rebellion!

Note that anyone can sign up to be a speaker at this event. See the link below where you can register on Friday noon for a speaking slot during the comment session. If you do grab a slot, fb messenger or email xrDenver@protonmail.com so we can coordinate our message! Besides declaring our rebellion, we will have a disruption... Hope to see you there!

Wednesday April 17: Funeral for the Earth

When and where: 12pm, 600 N Grant St, Denver, CO 80203-3507, United States

Details: We are in the planet's 6th mass extinction, caused by human greed, callousness, and indifference. Climate change is destroying life on our planet, and threatens our own existence. We

will have a funeral march with a coffin and other artful props. We will meet outside Dianna DeGette's Office and lead a funeral procession to 9News.

Our message is that the government and the media need to speak the truth about climate change and act as if that truth is real. We need our politicians to act with urgency to change the systems which have created injustice and and led to the climate emergency. We grieve for what is already lost, and will not stand by while our children and planet are destroyed.

Saturday April 20: Denver Rebellion

When and where: 11:30am, Fishback Landing Park , Denver, Colorado 80211
As part of 4/15 International Extinction Rebellion week, we need all fellow rebels to join us on Saturday, 4/20. We are demanding that our government speak the truth about climate change and act as if the truth is real. On 4/20, Extinction Rebellion Denver will be hitting the downtown streets with our message. While we demand truth, action, and justice, we are also celebrating each other, our solidarity, and our love for Mother Earth.

Please join us in this message and this action. We will celebrate and we will misbehave. Please attend! We love and value those who don't misbehave -- all can participate safely at whatever level they feel fits them. Children are welcome as well.

WTF? Why are we meeting at Fishback park? Why aren't we meeting at the civic center like every other Denver rally and march?
We've had 30 years knowing about climate change, rallying and marching, and haven't significantly changed a thing. We're trying something different, and expecting different results. Please join in our humble beginning on a route to an unstoppable future.

New York City

xrr.nyc

Sunday April 14: Extinction Mass: Remembrance for Lost Species

When and where: 2:00pm Prospect Park Southwest, Brooklyn

Details: We will honor each species by reading their name and a moment of silence. We invite everyone to collectively mourn with us the loss of our dead friends. We will summon our love for the Earth to feed our actions. Procession led by Reverend Billy and the Stop Shopping Choir, including remarks by Janet MacGillivray of Seeding Sovereignty.

Wednesday April 17: Tell the Truth

When and where: 9:00am City Hall Plaza, Manhattan

Details: On the morning of April 17th, from 9am to 11am, residents from across New York City and beyond will converge on City Hall to demand a rapid and large-scale response to avert climate disaster. The administration has made plans to build a $10 billion seawall around lower Manhattan and to introduce congestion pricing below 60th street. These inadequate measures ignore the urgent need to achieve zero carbon emissions by 2025 to sustain human and animal life on this planet.

Monday April 15: Demand Divestment NOW

When and where: 11:30 am – 1:30 pm at the JP Morgan Chase Bank at 221 W. 6th St.

Website/Facebook Event: https://www.facebook.com/events/414360035788230/

Details: We are still in the midst of picking the best meet-up spot, so STAY TUNED- but we will meet at 11:30 very near the bank. Please give yourself plenty of time to find parking. At 12:00 pm, we will head to the Bank and demand that they divest from the Permian Basin. It is time they are held accountable for funding climate disaster and human rights abuses.
What to bring: Posters with messages denouncing Chase and the fossil fuel industry, megaphones, drums, your own reusable water bottle.

Quote: "JP Morgan Chase Bank is the largest funder of the fossil fuel industry in the world and the largest funder of pipeline projects and fracking in Texas's Permian Basin. In 2017, Chase increased its funding of tar sands (refined into gasoline) by 400% and increased its financing of coal companies 21-FOLD.

"Extracting fossil fuel resources directly affects climate change, pollutes the air and water of the surrounding areas with toxic/carcinogenic waste and chemicals deteriorating the health of those exposed, wastes water, and destroys the environment.

"We at Extinction Rebellion believe that this is an unjust, backwards approach to the fossil fuel industry. Rather than investing in fossil fuel projects, banks should be divesting from the fossil fuel industry and investing in renewable energy sources. Since Chase Bank has shown in the past that they value power and profits over the health of the earth and its people, we understand that we must put pressure on them to divest in the form of PEACEFUL protest."

Monday April 15: Die-in: Hope Dies, Action Begins, Austin, TX

When and where: 4:30-6:00 pm Location: Pflluger Pedestrian Bridge, Austin,TX, 78704

Event: https://www.facebook.com/events/228803627993125/

Details: In solidarity with those around the world on Rebellion Week, we'll be "dying" to raise awareness of the sixth mass extinction and government inaction on climate destruction. We will be lying down for all the future generations who will die due to ecological breakdown. Bring your

friends. Meet at 4:30 in the parking lot of the abandoned business at the corner of Lamar and W Riverside. We'll organize into groups and explain the action before heading to Pfluger Pedestrian Bridge

Saturday 20th: - Rebel Revelry: Party Of The People, Austin, TX

Event: https://www.facebook.com/events/2686063711466723/

Details: At the epicenter of the collusion of the fossil fuel industry and our state's highest institution of Knowledge, we will seek and speak the TRUTH about the climate emergency, and make a 180-degree turn toward a world where we GO GREEN! In this Flash-Rebellion, we honor and defend the Earth and all green living things with a symbolic action of prayer, song, celebration and regeneration.Stay tuned for information on how to converge on a precise location.

Kentucky

Cincinnati, OH

Monday 15th - ORSANCO Ohio River Water Protectors Final 'Comment'

When and where: 3:30pm EST, ORSANCO office, 5735 Kellogg Ave.

Website/facebook- https://actionnetwork.org/events/protect-ohio-river-public-comment/

https://www.facebook.com/events/160829081478655/

April 15, the first day of a global week of action, is the last day for PUBLIC COMMENT on a proposal to change the pollution control standards for the Ohio River and its tributaries. This is our home water, and the change will impact projects upstream, including a proposal to make "Houston on the Ohio"-- a massive complex of refineries producing plastic out of fracking by-products. We are collecting and delivering public comments to the governing body in change of the water quality of our River. Together with many other groups, we have walked through the process offered and 99% of the comments are for MORE water protection. We will read the Declaration of Rebellion and let the commissioners know that if they ignore the public input requested, we will become more difficult to ignore.

Louisville, KY

Friday 19th - #dresstrashy Earth Day - XR goes to EarthWalk

When and where: 9am-1pm Iroquios Park•5216 New Cut Rd, Louisville , KY 40214

Website/facebook- https://www.facebook.com/events/644295089345221/

We will attend the annual EarthWalk as an XR contingent. During our inaugural meeting of XR-KY last month, we discussed with an organizer for EarthWalk about the opportunity to make a darker statement about what is happening to our climate at this typically spring-blossoms-and-butterflies "holiday" called Earth Day. We came up with the idea of making plastic refuse ponchos that we could walk under as a group, resembling the floating continents of garbage in our ocean whorls and shorelines. Our aim is to connect this plastic to the massive refinery complex proposed for the Ohio River Valley and to get out in public, Rebel for Life.

Monday 22nd: Vigil for the Earth

When and where: 8:00 pm – 9 pm EST , Washington Monument, 699 Washington Pl, Baltimore, Maryland 21201

Website/facebook event: https://www.facebook.com/events/2408549472512025/

Details: XR Baltimore will be holding an Earth Day candlelight vigil commemorating all of the animals, plants and entire ecosystems which have been wiped out in the name of capitalism's unending hunger for industrial growth. Dress up as your favorite endangered species, bring a sign and a song or a performance art piece if you wish! Candles will be provided.

Wednesday 17th: Tell the Truth: Ring the Alarm on the Climate Emergency!

When and where: 12 Noon, starting at the site of the Boston Massacre
xrmass.org
Facebook event: https://www.facebook.com/events/819606531735180/
Details: Extinction Rebellion Boston's first action will begin with a mourning ceremony for the lives and lands lost to the violent, unjust systems underlying the climate breakdown. Mourners will lay out the extinction symbol in flowers while they ring bells together to sound the first toll of the death knell for our planet. Accompanied by the Second Line Social Aid and Pleasure Brass band, rebels will make a public call to action to the Boston Globe. This visit comes after several unreturned requests to meet with Editor Brian McGrory to discuss how the Globe can fully communicate the perils of climate inaction. With their call to action delivered, rebels will demonstrate how to fulfill this mission, distributing alternative newspapers that accurately reflect the crisis while some members of XR will take acts of non-violent civil disobedience in testament of the gravity of the challenges facing all of humanity.
Quotes: Polly Wynn Allen, 82, longtime resident of Cambridge, MA:
"The Extinction Rebellion is providing me rich opportunities both to face the details of our dear planet's degradation and to join forces with a growing multitude to interrupt the devastation and turn it around."David St.Germain of Barre: "Time and time again the Boston Globe has sounded the alarm on awful human rights abuses, from violence against journalists to the sexual abuse of children by the Church. Given that the ongoing emergency of climate change threatens all life on the planet, why don't our trusted news sources represent the severity of the problem? Since the Globe's mission is to 'expose the truth, even in defiance of powerful interests', we are urging all of

their journalists to apply their consciences and take leadership by treating the climate crisis as the highest news priority of our time. Future generations depend on your truth-telling TODAY."

When and where: 4:30 PM – 5:30 PM CST, April 15th. **EXTINCTION WAKE UP!**

All are invited to: HONOR THE DEAD // ROUSE THE SLEEPING, as part of

XR INTERNATIONAL WEEK OF REBELLION
Event link: https://xrebellion.org/take-action-april-15-22-2019

Facebook event: https://www.facebook.com/events/400961547399688/

During the annual St. Patrick's Day celebrations, XR Chicago dropped some BIG BANNERS to announce the week.

We will be assembling a SLEEPING GIANT in Downtown Chicago, which will AWAKEN to the urgency of the climate crisis. We need groups from all parts of the greater Chicago area to carry one of the giant's body parts to this central location. Carry a leg on a kayak! Carry a foot on the train! Carry the heart on the bus! Carry the guts on a bike trailer! By transporting and delivering part of the sleeping giant, you will be literally reconnecting our fractured and disembodied communities into a unified coalition.

Following the awakening ceremony, we will rally outside the Thompson Center to hear our keynote speaker: author, social critic and political commentator PAUL STREET (CounterPunch, TruthDig) plus a variety of public speakers from our environmental activism community. Please let us know if you would like to be considered as one of our speakers.

Our central message is WAKE UP!
WAKE UP to the sixth mass extinction
WAKE UP to our failed systems of government
WAKE UP to corporations hellbent on the annihilation
WAKE UP to complicit media outlets
WAKE UP to environmental racism

After the rally we will form a raucous wake procession with a MARCHING BAND to spread our message at various locations - city hall, the federal building, media outlets, and to anyone who has been sleeping through the collapse of the ecosystems which future generations depend on for their ultimate survival.

https://facebook.com/events/398955820902288

https://actionnetwork.org/events/public-mourning-for-lost-and-endangered-species-2

Details: Are you experiencing climate grief? Let's come out in public to express our sadness about the species we've already lost to human carelessness and the losses that seem certain to come. We'll gather at the Mill City Ruins and process across the Stone Arch Bridge to the park on the other side. In the park, we'll have an open time for people to give eulogies, play or sing a song,

read a poem, or whatever seems appropriate in remembrance of the animals, plants, and insects that have left us forever. You're invited to bring something that represents a creature you're especially grieving. We will have a few animal banners to carry, but you are encouraged to bring your own.

Rep. Castor: Tell the truth about the climate emergency!

When: Monday, April 15th 4pm – 6pm

Event links:

https://www.facebook.com/events/486164308587122/

https://actionnetwork.org/events/funeral-procession-for-earth

Details: Funeral procession for the Earth and rally for a climate emergency at Kathy Castor's office building in Tampa. Castor is Chair of the Select Committee on the Climate Crisis and is the U.S. Representative for Florida's 14th congressional district, serving in Congress since 2007. Castor recently introduced the Climate Action Now Act (H.R. 9) to ensure that the U.S. meets climate goals agreed in Paris in 2015. However, these goals are inadequate to prevent a global climate catastrophe, calling for a cut in U.S. greenhouse gas emissions of just 26% by 2025. (For more on the argument for much more rapid cuts, see:
https://abeautifulresistance.org/site/2019/2/9/new-deal-who-dis)

Join us as we rally outside of representative Castor's office to pressure her and the Committee to tell the truth about the climate emergency we are facing. We will hold a street theater “funeral for the Earth,” with a mock coffin and procession. Make your own sign or use one of ours, we will have extras available. Black or dark clothing is encouraged but not required.

Demand stronger, emergency carbon cuts at St. Pete City Hall

https://www.facebook.com/events/322476618451699

https://actionnetwork.org/events/tell-the-truth-on-climate-st-pete

Details: Rally for stronger, emergency carbon cuts at St. Petersburg City Hall. St Pete is currently on course to cut emissions by just 80% by 2050. This goal is insufficient to prevent climate catastrophe. City council will be reviewing and voting for approval of this target and the city's Integrated Sustainability Action Plan on Thursday, April 18th. Concerned citizens will rally with Extinction Rebellion Tampa Bay to demand a reduction of carbon emissions to net zero by 2025, and demand that the government tell the truth about the climate emergency.

Noise demo against TECO and their fracked gas expansion!

https://www.facebook.com/events/595996957535904/

https://actionnetwork.org/events/noise-demo-against-fracked-gas-expansion

Details: In solidarity with our neighbors and all communities damaged by fracking pollution, Extinction Rebellion Tampa Bay will hold a noise demonstration outside of the TECO offices in downtown Tampa. TECO is currently planning a fracked gas expansion project at its Big Bend power plant in Apollo Beach, a move opposed by thousands of local people.
We will rally for an end to fracked gas and all fossil fuels, and a reduction of carbon emissions to net zero by 2025. Join us! Come as you are, bring a sign and a noisemaker, or use one of ours! Bring children, instruments or pots and pans, and enjoy venting your rage at the fossil fuel economy!

Friday, April 19th 10am – 1pm

Solidarity with Student Climate Strikers!

https://actionnetwork.org/events/solidarity-with-student-climate-strikers

https://www.facebook.com/events/326233118250929/

Details: In solidarity with the 1.6 million students who went on climate strike on March 15th, and every Friday, we will hold a protest, funeral procession and die-in outside of Tampa City Hall days before the mayoral runoff election. Frontrunner Jane Castor's current climate mitigation proposals go no further than plans to make city-owned assets 100% renewable by 2045. We intend to bring science homework. If you can only come to one event, please make it this one if possible. More is being planned for this action.

Monday April 15 - in order for action to begin, hope must die. So we will bury it with a funeral procession where some people take part willingly and others... probably not so willingly. At least they will be inside cozy cars. After the march we will send hope on its way and declare an open rebellion and the next actions. Madis Vasser, a local activist: "The estonian word for hope - "lootus", is really close to the word nature - "loodus". Hope does not die last, nature dies last. Hope must die well before, in order for nature to survive."

Tuesday April 16 - We're fucked, and we need to shout it from the rooftops. Or from other visible places. With banners. Big banners. Also, to lift the mood, we will paint the streets with XR symbols. Did you know that the "do not park" traffic sign is literally just two straight lines away from the extinction logo? We shall host a challenge to see who can transform the most signs in a day. We are in a hurry after all!

Wednesday April 17 - Everything is awesome when you are a part of a team. And you do swarming. On the main intersections. While painting the streets. Best to leave your car home that day. Also, some highly illegal tree planting might be in order too.

Thursday April 18 - MORE TREES! Estonians love trees.

Friday April 19 - National holiday. Time to connect with loved ones. Send a letter perhaps. Or read one. Publicly. For Earth. Wherever we find people to listen to us.

Saturday April 20 - All this rebelling takes the breath away. So we'll do some die-ins at the way-too-many malls in Tallinn.

Sunday April 21 - We have grieved, we have rebelled, we have rested. Now we party. Where? On the streets of course!

Hungary

Budapest

Event title: Kihalni esélyes! | Extinction Rebellion Budapest
When and where: various events between 15-27 April. The main event is a protest in Budapest on the 27th
Details: Extinction Rebellion Hungary is planning a protest on 27th April to pressure decision makers and individuals to act on climate change. In the preceding two weeks, we are organizing various events in Budapest. The main focus of these is informing the public about climate change and raising awareness of the importance of immediate action. The events will include roundtable discussion, ARTivisim workshop, discussion about degrowth and many more.
The Hungarian government claims to care about the environment and climate change, but only on paper as part of their populist politics. In reality, Hungary keeps campaigning for less emission regulations, and favours German car factories over the environment. The public awareness of climate change is quite low in Hungary, that is why we will include informative, educational events, and talk about individual and collective actions as well.

Ireland

City: Dublin

Event title: Day of Rebellion
Website/facebook event: https://www.facebook.com/events/417223278841375/
When and where: From 1pm, Friday 19 April at The Spire, O'Connell Street Dublin.
Details: In support of the the International Rebellion, Extinction Rebellion Ireland will occupy O'Connell Bridge in the centre of Dublin from 1.00pm onwards, with speakers and music highlighting the ecological and environmental crisis we all now face. Traffic will be stopped and peaceful civil disobedience will take place.

Italy

Netherlands

MONDAY APRIL 15 – DECLARATION OF REBELLION
Programme
13:00 – 15:00 – Briefing at Lange Voorhout 102 (in the garden)
15:00 – 16:30 – Demonstration with speeches at Het Plein
16:30 – 17:00 – Symbolic action at het Binnenhof

What? We will start the afternoon by reading the Declaration of Rebellion (in English). With this we will declare to no longer wait idly by, but to rise up against the Dutch government and rebel! Several speeches will be given to rally us further in this cause. To commence this rebellion, we will head towards the Binnenhof, where we will use an artistic splash to show that the Dutch government's policies and inaction on the climate front is causing a real-life toll.

TUESDAY APRIL 16 – OCCUPATION OF A BUILDING IN THE HAGUE

Much of this action is confidential, but it should be known we will occupy 1 building. Participants will get a briefing in advance of the action. The risk of arrest during this action will be quite present. If you would like to take part in this action please come to an NVDA training, a briefing or get in touch by sending an email to xrdelft@protonmail.com.

Meeting point: 9:00 @Grand Café Utopie, Waldeck Pyrmontkade 116

THURSDAY APRIL 18 – STUDENT DIE-INS (NATION-WIDE)

Student groups within Extinction Rebellion Netherlands will call on their Universities to take action in response to climate catastrophe through a demonstrative "die-in" action. All through-out the Netherlands student groups will perform die-ins to strengthen this call to action. Check here to see if there's a student-group in your city.

FRIDAY APRIL 19 – SWARMING IN THE HAGUE

What?We will use a technique called 'Swarming' to disrupt daily life. Swarming means multiple groups will spread through The Hague, blocking roads for 7 minutes at a time, to bring gridlock to the city. By doing this, we make people consider the destruction we cause and the imminent threat of climate crisis we try so hard to ignore. The impact for each individual will be small (a few minutes late for work), but because of the cumulative effect, we will hit the economy and force politicians to respond.

Meeting point: 14:00, Lange Voorhout 102, Den Haag

SATURDAY APRIL 20 – FUNERAL MARCH ROTTERDAM

What?
We are going to march through the city in a funeral procession. This is a way to commemorate the victims of the destruction of our planet and to mourn.

Meeting point: Shell Nederland; Weena 70, Rotterdam 13:00

FRIDAY 26 APRIL – SWARMING IN AMSTERDAM

What?
We will use a technique called 'Swarming' to disrupt daily life. Swarming means multiple groups will

spread through Amsterdam, blocking roads for 7 minutes at a time, to bring gridlock to the city. By doing this, we make people consider the destruction we cause and the imminent threat of climate crisis we try so hard to ignore. The impact for each individual will be small (a few minutes late for work), but because of the cumulative effect, we will hit the economy and force politicians to respond.

Meeting point: 7:30 @Nieuwe Looiersstraat 31, Amsterdam

SATURDAY APRIL 27 – KING'S DAY IN AMERSFOORT

What?
During the King's day celebrations we are going to welcome the king in Amersfoort. Details will follow, but bring your swimming shorts!

Meeting point: 9:00 in Amersfoort (exact location TBA)

Norway

Oslo
Monday April 15: Funeral Procession directed at the government, with explicit criticism of Norway's plans to produce oil and gas until 2070.
Primeminister Erna Solberg likes saying: "The person who will shut down the last of Norway's oil platforms has not yet been born." We will work to ensure shut-down happens much sooner.

Saturday April 20: Meet XR Norway

We will run two stalls, with various ways for people to interact with members of XRN. The locations are busy thoroughfares in the city. We'll answer questions, register new members, hand out information and print the XR logo on clothing, bags and other items.

Event Title: Festival of Climate Reality
Facebook: https://www.facebook.com/events/2108503329440590/

Scotland's International Rebellion begins with a Festival of Climate Reality at Lister Building at the University of Edinburgh from 10am to 5pm. This event is open to all ages, with events specifically for kids! There will be workshops, crafts, arts, talks, trainings and a regenerative wellbeing space.

Room 1: "Heading for Extinction, and What to Do About It": Laying out the true extent of the climate crisis and ecological collapse – and why now is the time to rebel. We will be repeatedly presenting this talk throughout the day.
Room 2: Solutions: Solution-focused speeches, workshops, sign-up spaces and trainings will run throughout the day, including an "Introduction to Non-Violent Direct Action" workshop.
Room 3a: Art Zone: A space for empowering individuals of all ages to engage in collective creative resistance. The aim is to enable people to process the reality of our situation and translate the trauma of this into truthful expression.

Room 3b: Regeneration Zone: Perhaps the most distinguishing feature of XR as an activist movement is its focus on a regenerative culture that works as a support mechanism for its rebels and wider society. Our regenerative culture focus group will provide a safe space to heal and process the emotional and psychological aspects of our reality.

Event Title: Climate Emergency Roadblock
Facebook: https://www.facebook.com/events/168897767334993/
https://www.facebook.com/events/315892172412357/
Taking to the streets, on the second day of Scotland's International Rebellion rebels will block off North Bridge in the centre of Edinburgh between 3pm and 9pm, creating mass disruption in Scotland's capital city.
The road block will be preceded by a 'critical mass' bike ride, where a block of cyclists will cover the road wearing signs, flags, and bright colours, slowing the traffic before it is stopped altogether. In our reclaimed street, there will be a party, a ceilidh, and joyous rebellion. We are inviting speakers, musicians, poets and artists, but everyone is welcome to speak.

London

Event title: International Rebellion

Website/facebook event:
https://rebellion.earth/get-active/international-rebellion-a-guide-for-participants/ /
https://www.facebook.com/events/126622414898833/

When and where: From 11am Monday 15 April across four locations for two weeks - Marble Arch, Oxford Circus, Waterloo Bridge, Parliament Square. Extinction Rebellion Youth will be meeting at 11am Piccadilly Circus

Actions: In the UK, Earth Marches from around the country will converge on London, where thousands will peacefully join Extinction Rebellion to take to the streets, seizing and occupying Marble Arch, Oxford Circus, Waterloo Bridge, Parliament Square, with Extinction Rebellion Youth meeting at 11am Piccadilly Circus. These will be held day and night until the demands are met. There will be people's assemblies, art actions, music, theatre and dance, talks, workshops, food and family spaces. Rebels will camp at Marble Arch while holding all-night candlelit vigils, interfaith events, musical performances, sober raves, and other entertainments and activities at the other four. Spreading outwards from these sites, rebels will block roads and escalate creative nonviolent direct actions, including targeting the London Underground tube train network, progressively shutting down the city until the Government responds.

Mim Black, Extinction Rebellion, Edinburgh, said: "*The Government is criminally negligent of its duty to protect its citizenry and has been for decades. Even now, with the latest IPCC report laying out for them just how dire the situation is, they continue to bicker and squabble over the meaningless trivia of Brexit. This cannot be allowed to go on. We have to rebel.*

"Bizarrely, as terrifying as it all is, it's also tremendously exhilarating. We are about to have a truly International Rebellion, across the whole world, all six continents inhabited by humanity. A peaceful revolution at which we sing and dance and have fun. If that's not worth being alive for, and trying to make sure that we all stay alive for, then I don't know what is."

Notes to editors

About Extinction Rebellion:
Time has almost entirely run out to address the ecological crisis which is upon us, including the 6th mass species extinction and abrupt, runaway climate change. Societal collapse and mass death are seen as inevitable by scientists and other credible voices, with human extinction also a possibility, if rapid action is not taken.

Extinction Rebellion believes it is a citizen's duty to rebel, using peaceful civil disobedience, when faced with criminal inactivity by its government.

Extinction Rebellion's key demands are:

- Government must tell the truth by declaring a climate and ecological emergency, working with other institutions to communicate the urgency for change.
- Government must act now to halt biodiversity loss and reduce greenhouse gas emissions to net zero by 2025.
- Government must create and be led by the decisions of a Citizens' Assembly on climate and ecological justice.

Get involved in Extinction Rebellion:

- In the UK, come to one of our events, join the Rebellion Network and let us know how you can help out
- Start a group where you are – locally in the UK or in your country around the world
- Find your local group: https://www.google.com/maps/d/viewer?mid=11jUqqjTHMThksd4KbvGGzb3I3Cr3PkBI&usp=sharing
- Check out the International XR website, with links to the French, German, Italian and UK websites
- We are holding Collaborative Leadership Calls to help coach people to improve their leadership skills and capacities
- And while your time and energy are the most important things, if you are financially able to donate money, see our Fundrazr crowdfunder.

About Rising Up!
Extinction Rebellion is an initiative of the Rising Up! network, which promotes a fundamental change of our political and economic system to one which maximises well-being and minimises harm. Change needs to be nurtured in a culture of reverence, gratitude and inclusion; whilst the tools of civil disobedience and direct action are used to express our collective power.
