I may charge extra for other extras during communication that aren't listed here, but I will discuss this with you.

In regards to an extra character, I will charge for the character who is showing more of their body as the original price e.g. $\frac{3}{4}$ body = original price, half body = extra price in one piece (see an example below)

If you wish to have concept work done for personal or commercial use, please contact me on my Instagram (<https://www.instagram.com/kitseus/>) for personal concept work and izzy.t.head@gmail.com for commercial. See <https://www.artstation.com/izzyhead> for concept examples.

Will do	Won't do
• NSFW • Gore • Anthro (scroll down for an example, I don't work in the traditional furry style) • Twitch/stream overlays (please discuss for more information) • Fan art • OCs • Real people	• Mech • Vehicles • Self-harm/suicide • I may not have listed something, so if I am uncomfortable I will deny the request

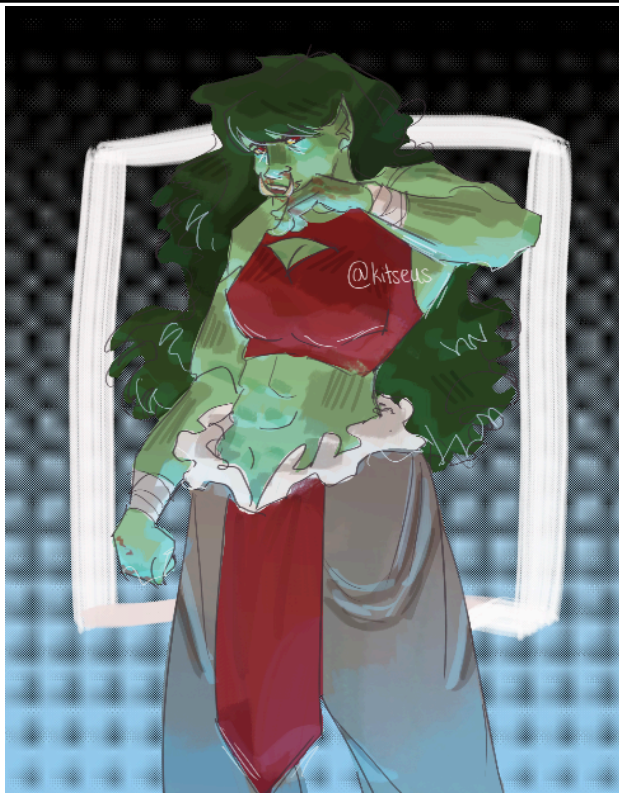

I have the right to decline a commission if I do not feel comfortable with it.

I also request that the client gives me as many references as they are able to for me to achieve the best quality of work I can for you.
