

U.S. VIRGIN ISLANDS (USVI) TRAVEL ADVISORY

General guidance for COVID-19 passenger screening for Domestic/International Arrivals

All travelers to the USVI must complete the questionnaire at the USVI Travel Portal prior to traveling to the Territory: [USVIupdate.com/travelportal](https://usviupdate.com/travelportal). You should only complete the Travel Screening Portal within five days of travel.

Updated September 15, 2020

***Leisure travel to the Territory will resume on September 19, 2020.
If you are arriving on or after September 19, 2020, you are required to produce a
COVID-19 test result.***

Effective September 19, 2020, every traveler aged five and older who enters the U.S. Virgin Islands is required to produce a COVID-19 test result obtained within five days of commencement of travel to the Territory.

Travelers unable to produce the required test result will be subject to mandatory quarantine for 14 days, or until they are able to receive the required test result while in the Territory.

All arriving passengers **MUST** wear a mask or facial covering upon disembarkation in accordance with USVI guidelines. This requirement is enforced by a fine.

Upon arrival into any U.S. Virgin Islands port, travelers will be subject to certain COVID-19 enhanced screening procedures outlined below. By reading this Travel Advisory, all travelers by embarkation on an arriving aircraft or vessel grant their consent to these procedures.

Upon aircraft or vessel arrival, a representative will advise passengers about the screening procedures.

Upon exiting the aircraft or vessel, **ALL** passengers will be escorted to the Virgin Islands Port Authority temperature checkpoint. Travelers who have not received certification from the USVI

TRAVEL ADVISORY

General guidance for COVID-19 passenger screening for Domestic/International Arrivals

Travel Screening Portal will be required to complete a COVID-19 Traveler Screening Questionnaire. Travelers that have received certification from the portal will be required to present their travel certification (digital or printed) to the screening agent.

At this checkpoint, ALL passengers will have their temperatures taken.

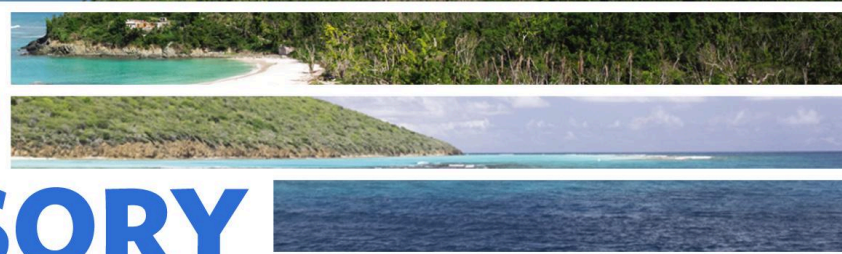

- If the passenger has a temperature reading below 100.4°F and answers “NO” to all questions on the COVID-19 Traveler Screening Tool, the passenger will be free to leave.
- If the passenger screens above 100.4°F, the passenger will be escorted by the Virgin Islands Department of Health (VIDOH) and/or the Virgin Islands National Guard (VING) for purposes of quarantine and a second temperature screening, due to possible atmospheric temperature effects on body temperature.
- After a 10-minute break, VIDOH/VING personnel will retake the passenger’s temperature.
- If the passenger’s temperature is below 100.4°F after the second temperature reading, and the passenger has answered “NO” to all the questions, the passenger will be free to leave.
- If the passenger’s temperature remains at 100.4°F or above and/or the passenger has answered “YES” to any of the questions, the following steps will be taken:
 - If the passenger is a visitor, the passenger will be required to go directly to their accommodations provider and will be required to self-quarantine while awaiting COVID-19 testing by the VIDOH Epidemiology Team within the next 24 hours.
 - If the arriving passenger is a resident, the passenger will be required to head directly to their residence or place of abode and self-quarantine until an appointment for COVID-19 testing is arranged by the VIDOH Epidemiology Team the following day.
