

Unreal Engine

Modular Warehouse Environment Pack

Modular Warehouse Environment Pack for Unreal Engine

1. Introduction

Step into the world of the **Modular Warehouse Environment Pack**, a versatile modular warehouse environment designed for Unreal Engine.

Created for game developers, level designers, architectural visualization, simulation projects, and industrial digital twin applications, this pack provides over **62 unique static meshes**, and a wide variety of materials and textures to help you quickly build realistic warehouse, storage, logistics, and industrial environments.

The pack features modular warehouse structures, industrial props, storage racks, containers, loading areas, and detailed environmental assets, allowing you to create customizable warehouse layouts with an efficient modular workflow. All assets are optimized for smooth performance across PC, console, VR, Digital Twin and next-generation real-time applications.

2. Key Features

- 50+ Static Meshes
- 22+ Unique Materials
- 60+ Unique Textures
- Modular Warehouse Building System
- Industrial Props and Storage Assets
- Included Demo Scene
- Optimized for Multiple Platforms

3. Included Content

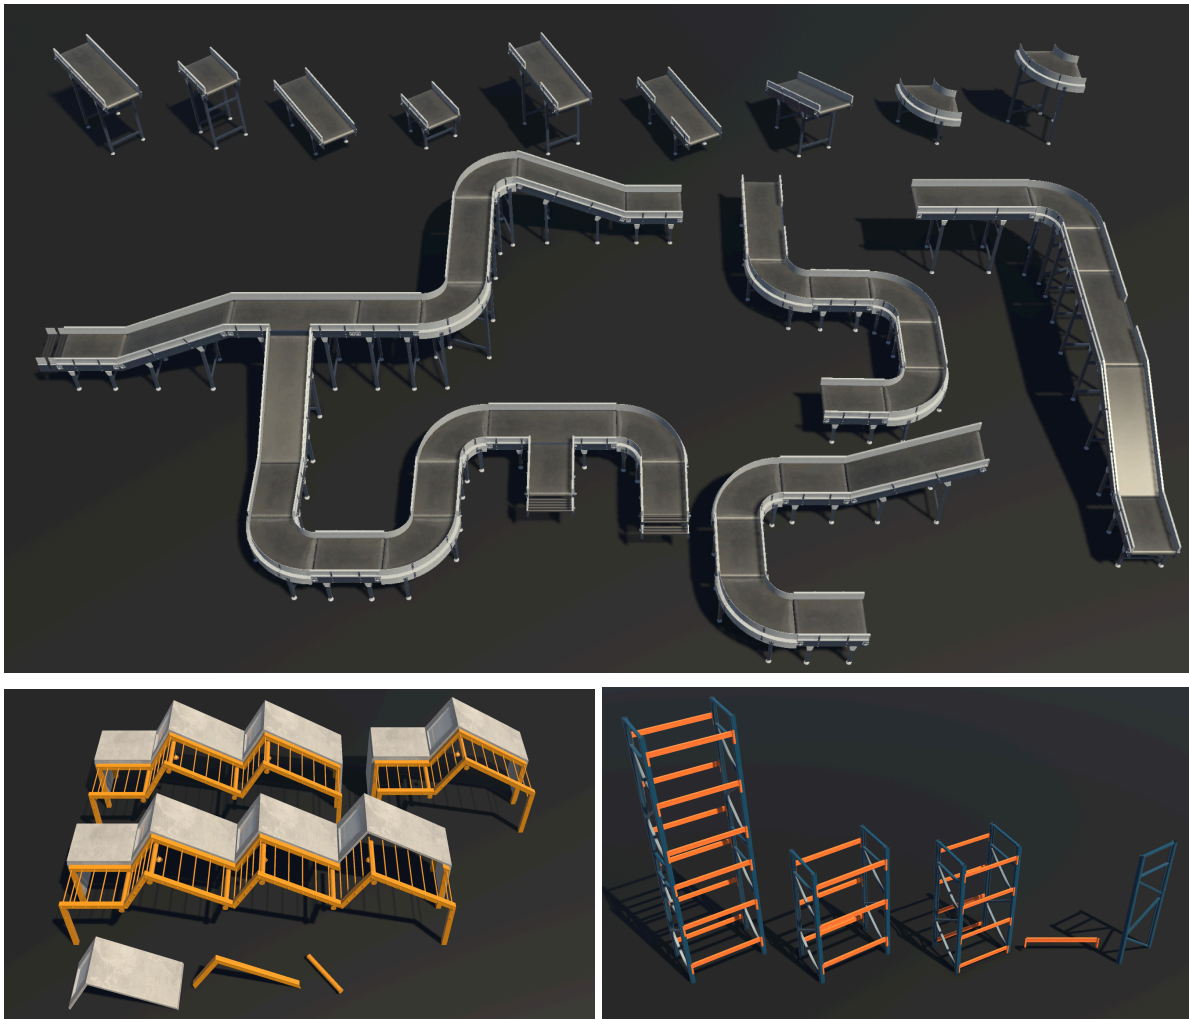

- Warehouse Building Modules
- Storage Racks and Shelving Systems
- Industrial Props and Equipment
- Containers and Packaging Assets
- Doors, Gates, and Structural Elements
- Materials and Textures
- Demo Scene
- Documentation

4. Technical Details

- Compatible with Unreal Engine 5.0.3 and above
- Texture Sizes: 2048 × 2048 and 4096 x 4096
- Optimized geometry for real-time applications
- Efficient material setup for improved performance
- Modular workflow for rapid level creation
- Suitable for PC, Console, VR, and Mobile Development
- Easy-to-customize warehouse layouts and industrial scenes
- Optimized Geometry: **Ranges from 38 to 73396 triangles per mesh.**

Modular Assets

5. Ideal For

- Warehouse Simulations
- Logistics & Supply Chain Applications
- Industrial Training
- Digital Twin Projects
- VR Experiences
- AR Applications
- Simulation Games
- Management Games
- Industrial Environment Level Design

Support & Customization:

This pack is designed to be a “living” asset and will continue to evolve over time. If you encounter any issues or have questions regarding implementation, please feel free to reach out through our [support link](#) or [Discord server](#).

For faster support, we recommend joining our [Discord server](#). Our team is ready to help and answer any questions you may have.

Level up your game's feel and performance today!

Your Review means the world to us!

Great feedback comes back as even better features.

If there are any suggestions or ideas for improvement, feel free to contact us. If possible, we will include your request in future updates.
