Industrial Electrician – Expression of Interest

Casual | $65–$72/hr | Major Projects Across QLD

Discover Your Next Challenge at AMG Electrical Solutions

AMG Electrical Solutions is at the forefront of delivering innovative electrical services to Queensland's industrial, heavy industry, and renewable energy sectors. Based in Kingaroy and operating across Southeast and Western Queensland, we are proud to partner with clients leading the way in manufacturing, mining, utilities, water infrastructure, agriculture, and large-scale renewables. Our company culture is built on integrity, technical excellence, and a safety-first mindset.

Flexible Work Opportunities

We offer a mix of residential positions based in the South Burnett region, as well as opportunities with **travel and accommodation fully provided** for projects across Southeast and Western Queensland. Whether you're seeking stability close to home or the excitement of working on a range of sites, we have options to suit your lifestyle and career goals.

Your Role

As an Industrial Electrician at AMG, you will be an integral part of project delivery, maintenance, and site commissioning across a range of industrial and renewable projects. Your expertise will help keep the wheels of industry turning and support the state's energy transformation.

In this role, you will:

- Troubleshoot, diagnose, and repair faults in industrial automation, power, and control systems.
- Execute electrical installations, upgrades, and commissioning for industrial and renewable energy facilities—including solar farms, battery storage, and process plants.
- Perform scheduled and emergency breakdown maintenance to maximise uptime for client operations in heavy industry, mining, water, and utilities.
- Contribute to project planning, risk assessment, and continuous improvement initiatives on-site.
- Ensure all work complies with safety standards, site procedures, and relevant regulations.
- Liaise with project managers, engineers, and site supervisors to deliver projects safely and on time.

About You

You will thrive with us if you have:

- A current Australian Electrical Licence.

- Strong experience working in industrial settings (e.g. mining, renewables, water/utilities, or large-scale manufacturing).
- Proficiency in reading and interpreting complex electrical schematics, commissioning, and automation.
- High standards for safety and a proven ability to identify hazards and implement controls.
- Confidence to work independently in remote or high-risk environments, and willingness to travel as required.

Essential:

- LVR/CPR certification (current)
- Construction White Card
- Manual driver's licence
- Team player with a positive, can-do attitude and excellent communication skills

Desirable (not required):

- Standard 11 & Coal Board Medical
- Instrumentation, Hazardous Areas, or HV Switching tickets
- Confined Spaces / Working at Heights
- High-Risk Work licences

Why Join AMG Electrical Solutions?

- **Industry-leading pay** with overtime, travel, and allowances for remote work
- **Diverse and challenging projects** with well-known clients in growth sectors
- **Training and upskilling**—advance your career with technical development and certifications
- **Genuine team culture**—be valued for your contribution, supported by experienced leaders, and backed by a company that invests in its people
- **Safety above all else**—our uncompromising approach keeps you, your teammates, and our clients protected
