CASE FOR SUPPORT

In 2019 – “amidst the Covid 19 pandemic”, I discovered the gold in ICT literacy. With basic computer skills, I went further to obtain a course in Content Writing and since began earning in dollar currencies shortly after its completion.

In the conviction that ICT literacy is a sure means to poverty alleviation and youth empowerment, I have since organized seminars, virtual and physical ICT training in my locality. Many youths have therefore been exposed to these earning opportunities, and I truly hope that many more will.

I am currently serving under the **Nigeria Youth Service Corps (NYSC)**, and seeing the current lapses in **ICT literacy** in this region; I would be replicating similar **ICT training, donating computers** to schools and carrying out a Career **Development summit** as my **Community Development project** in this Community. This will be targeted at marginalised youths with special preference given to the girl child since they have less opportunity for such training.

1. 70 – 100 youths will be invited to attend five one-month long computer training workshops (for a total of 500 youths). They will learn basic **words, PowerPoint, Publisher and Excel**. They will further learn about the different **prospects in ICT** and how to **monetize** these skills.
2. 6 Computers will be donated to 2 public schools; a class designated will be renovated for this purpose.
3. A **career Development summit** will be organized featuring students from several local high schools and taught on the need for **informed career choices**.

We would appreciate your generous contributions, donations and/or recommendations especially in the areas of funding, and in the provision of computer sets for these training.

Train a child in ICT today with your generous gifts

Donations are to be made to the account detailed;

Acct. No.: 3057333611

Bank Name: First Bank

Account type: Savings

Account name: Apochi Obed

With a sincere understanding of your schedule and maybe a strict budget, I would be super excited to get a response from you.

For further enquiries and contributions please contact us;

Kind Regards

Apochi Obed
