*Expert to add bullet points on the following/Expert to respond to the questions below in bullet points:*

- 

[call out]

Expert to add/advise on the following:

[End call out]

---

## References

**Please include references for this article.** Maximum 15 references. This can include academic articles. Ideally please include a few from the last 2 years. Articles don't have to be suitable for a parent audience.

## External web links (optional)

Maximum 6 links. This can include web links to supporting information, government brochures or additional resources. Content should be suitable for a parent audience. Links should complement the written piece rather than duplicate its messages.

---

## Other notes for author:

- Include a glossary for any terms in the article that may require definitions (i.e. 'self-stimulating behaviour', 'Metabolism' or 'Family-centred practice').
  - As a guide for style, see example pieces already published on RCN. The following articles have elements that are similar to the new article in development:
    - [Health problems in pregnancy](#)
-
