ABOUT YOUR KINGDOM:

The twisted cove is a kingdom made of trees, rivers, and waterfalls. It's a gorgeous location year round, experiencing all four seasons and a range of weather patterns. The forest is vast and filled with different, very large fauna that ranges from timberwolves (made of wood and moss) to witherdeer (a plant-based deer that changes its looks with the seasons). Enjoy the wonderful fruits and berries on offer, but stay away from the sacred locations. There are 7, but we can't tell you what or where they are.

POINTS OF INTEREST:

Reverse waterfall:

No one knows why time flows in reverse around this river. It's hard on the plants and fauna who stay far away. But some find this enchanted fall to be a blessing for the gods.

Luminescence river:

When touched, this river glows a bright blue. It doesn't do anything else, but it looks nice.

Shifting trees:

The trees wake and roam the forest at night, looking for a better place to settle. They are harmless, but then again, they are giant moving trees without sight or hearing, so it's best to stay inside at night. Else you could end up on the far side of the kingdom.

ABOUT YOUR STYGIAN:

QUESTS:

QUEST

Wondering trees

- 1) After the sun sets, the forest becomes an entirely different place. This is the time for the forest's trees to move freely and take up new locations.
 - Draw or write about your stygian becoming lost in the sea of shifting trees. Why do they do, freak out, or go with the flow
 - Reward: the trees offer you fruit from their sacred cove! Will you take it? Some say the flesh of the fruit taste different each bite!

Overstepping boundaries

- 1) While looking for a way back, you find yourself in the enchanted meadow, an off-limits location. The fauna is not happy you are there!
 - Draw or write how your stygian escape the angry fauna! Do they fight the beast of shadows, or do they run for the hills?
