

Dear Mr. Durham:

I write for the [American Thinker](#). I have written many articles on the corruption of the administrative state and those who aided and abetted it (See [My article archive](#) below). I have thirty-five years of law enforcement experience, twenty of which were as a police detective in a large SoCal police agency.

The House Oversight Committee has recently confirmed many of my conclusions regarding the DOJ, the FBI, and the CIA going full Stasi in support and concealing the many crimes of Hillary Clinton and the current Biden Administration. They interfered with the 2016 and 2020 elections. Before and after the 2016 election, the administrative state, with other actors, attempted a soft coup against a duly elected President. The DOJ and FBI will not investigate and prosecute the many crimes that were committed in this soft coup. In addition to ratholing Hunter Biden's laptop, they are doing the same for [Seth Rich's laptop](#). With what came to light in the last year, it wouldn't surprise me that Seth Rich was murdered to preserve the Russian Collusion disinformation operation run by the FBI and the CIA/ Your work proved this narrative to be false.

The Russian Collusion narrative is within your mandate to investigate. I would challenge you to investigate all aspects of this false narrative as it will expose the perpetrators and those who aided or abetted in the commission of these crimes. More so to expose an ongoing criminal conspiracy of the administrative state with the common purpose of a coup against a duly elected President and the many crimes committed and to prosecute as a criminal enterprise (RICO). The Oversight Committee can recommend policy and legislation but it can't hold the perpetrators criminally accountable for their actions. You, Sir, have the authority and power to do so.

As I recently [wrote](#):

America is at a tipping point. Will we continue the downward spiral into a fascist third-world dictatorship? Can we change course back to a constitutional republic that values the free will of men and women, freedom of speech and assembly, the rule of law, and equal justice?

### **The administrative state must be held accountable**

The DOJ, the FBI, the CIA, and others intentionally violated the civil rights of citizens, including the right of free speech, unreasonable search and seizure, ignored the rule of law and equal justice for all. Instead, all engaged in or covered up for [politically based selective](#) prosecutions by entrapment, lying, the abuse of power, and unlawful use of force under the color of authority.

The fate of our Country is in your hands.
