COMMISSION AND REQUEST FAQ

(In regards to both SFW + NSFW)

- 1) Don't be rude! I love politeness and honesty. Friendliness is a plus.
- 2) Always be certain of what you would like me to draw. We can discuss details.
- 3) Time on commissions and requests is a month to a month and a half as I juggle with work and life things. I will be sure to let you know if there are sudden changes. Please be patient with me!
- 4) Commission slots are up to three, request slots are up to three. Requests are/will be always free! I do ask for a donation/tip if you enjoy seeing my work but it's up to you if you wish to do so; I don't mind it.
- 5) When emailing me, make sure to have "commission" in the subject line. Same goes for "request". You can also DM me as I'll most likely see it!
- 6) Demanding art from me is **not** cute. It makes you look like a jerk and it's an immediate block and report.
- 7) Do **not** push my boundaries. I am upfront with what I will and will not draw. If I feel that the request or commission is out of my comfort zone, it's a hard no.
- 8) Obviously, the spicy side is **not** minor friendly. It's 18+ for a reason. If I see/catch anyone who interacts without an age in their bio, it's an immediate block. I do not tolerate it at all. As I said, I

appreciate honesty and I like it even more if people are upfront with me.

9) With the ever growing NFT market and blockchains, my art is **not** to be used for obvious reasons. *It's harmful to the environment and to the planet.* It is also an immediate block, report, and ban. Please understand that. Also, I would love it if anyone would let me know if they see my art on any NFT sites.

QUESTIONS

- ***What are your thoughts on requests?*** Requests are always free but it's at my discretion and if I happen to like the idea/scenario. See #4 above as there's more details on how I do my requests.

- ***How about commissions?*** See #3 above. I request 50% up front and the rest once the commission is completed.

- ***Are you up for art trades?*** Absolutely~! But please don't spam/demand it from me. Currently, art trades are **open but only for mutuals**.

- ***Will you draw x and x with a kink that you're not comfortable with?*** Nope! And pushing for it will only end in a block. See the kink list doc for what kinks I like and what kinks I don't like/hate.

- ***Why won't you draw it?! I know it makes you uncomfortable about it but I want it!*** It will and always will be a no. Don't push it. Immediate block.

- ***Can I send you messages that's not related to art? What if I want to get to know you?*** I'm usually friendly but do understand I can't talk all the time. If I haven't responded in a while, do **NOT**

spam my messages to get my attention. It does make me very uncomfortable if that happens.
